

BIND THE HOME TIES CLOSER

Can you imagine a home without love, without sentiment? Such a place would not be a "home."

Then think of a home without music? How dull, how lifeless, how depressing. Combine the two—love and music—and you make life worth while. Love alone binds

the home ties close, but add music and you bind them closer.

Even though some member of your family should sing or play some instrument very well, this is far short of satisfying you if you love music in all its forms, and how few do not. How can you have music in all its forms? The

EDISON DIAMOND AMBEROLA

Throws open to you the doors of the entire world of music. Something to suit, whatever your taste, whatever your mood, whatever your guests prefer; the most classic of vocal and instrumental compositions; the most fantastic "rag"; serious, dramatic recitations; hilarious vaudeville sketches, captivating dances that just won't let your feet behave; your favorite songs, your favorite voice, your favorite instrument.

With The EDISON DIAMOND AMBEROLA you can have a matchless array of talent right in your parlor or living room ready to pour forth the richest melody to which ears have ever listened. The vibrant tones of great, trained voices, the crashing thunder of a military band, the sweet, sobbing strains of a Stradivarius responding to the touch of a master hand. Not a wheezy, mechanical approximation, but REAL MUSIC, identical with what you would hear direct from the artists themselves. All the natural richness is there because the new EDISON process of recording preserves every iota of humanness of the living voice, and the distinctive characteristics of each instrument.

The EDISON DIAMOND AMBEROLA is itself a superb musical instrument, (not a mere "talking machine"), at an exceedingly moderate price; \$30, \$50, or \$75 for the finest model. EDISON BLUE AMBEROL records, including the best concert and operatic selections are 50c, 75c and \$1. The reproducer stylus of the DIAMOND AMBEROLA is a genuine diamond that never needs changing. BLUE AMBEROL records are practically unbreakable and unwearable.
