**TOBACCO HABIT EASILY OVERCOME**

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, **Edward J. Woods**, 1823 A. Station F, New York City, will mail his book free on request.

The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire.

**Cured His RUPTURE**

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, **Eugene M. Pullen**, Carpenter, 1003 D Marcellus Avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

ings, the minimum standard of exemption from seizure to be fixed by the legislative assembly; all lands so confiscated to be transferred to the control of democratically constituted local authorities for the purpose of division of such lands among peasant tenants who are actually carrying on cultivation of such lands.

23.—Aiming at the attainment of the final abolition of all special privilege and privileged classes in Russia, the socialist labor party will support every revolutionary movement tending to put an end to the domination of hereditary aristocracy, wealth, private monopoly, and political and police autocracy in Russia; these forces being always detrimental to the well being and progress of the working classes and happiness of mankind.

24.—The party is irrevocably committed to the annihilation of every remnant of autocracy and to the establishment at the earliest possible moment of a Constituent Assembly freely elected by the entire people on the basis of a universal, direct and secret ballot; executive officers to be chosen by such constituent assembly.

**WILL OUR ARMIES RETURN AMERICAN?**

A Washington, D. C. dispatch, dated Feb. 11, says: Following extracts from February *Brewers' Journal* show what liquor men are saying and doing.

"American soldiers who are now learning in France how to drink moderately will be of powerful assistance on their returning home in transforming the American saloon into the pleasant and comfortable European beer and wine hall and hospitable tavern."

"General Pershing allows beer and light wines to the American soldiers in Europe, and the reason assigned for this by experts who know the conditions in Europe is that they are not intoxicating but are wholesome, healthful and invigorating."

"The purchasing committee of the *Brewers' Association* in France has contracted with American firms for the delivery of barley and malt from the United States, and part of the deliveries have been effected. Most of the brewers using these American brewing materials are well satisfied with their quality."

**What Are We Doing?**

What are American friends of the American soldiers saying to the President and congress about this Frenchifying of our soldiers? Professor Irving Fisher and Father George Zurcher have both sounded a warning, that the defeat or reversal of national prohibition might be accomplished by the return of our soldiers with French standards, since they will be the political heroes and office holders of the after-the-war period. Most of the lecturers coming back from the front are defending even the "rum ration," which may be copied from Britain if our dumb democracy does not make a louder demand that our soldiers when in Britain shall do as Americans do. So friends of the soldiers seem to be awed into feeble protests by blustering denials of statements never made. No one has said our soldiers in France are "mostly drunkards" or "drink to excess." What has been said is that they have been from the first permitted, and recently by official order, to "buy and receive as a gift \* \* \* beer and light wines," and that there has been abundant proof that these permitted drinks do intoxicate and lead to vice.

General Pershing's intimation early in December that he would ask the French government to allow com-

**Take Nuxated Iron, Says Doctor, If You Want Plenty of "Stay There" Strength Like an Athlete!**

Makes Delicate, Nervous, Run-down People Stronger in Ten Days' Time, in Many Cases

**M**OST people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. E. Sauer, a Boston Physician who has studied widely, both in this country and in great European Medical Institutions, when, as a fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people, who were ailing all the while, most astonishingly increase their strength and endurance simply by taking iron in the proper form and this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated, like nuxated iron, if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance which comes from having plenty of iron in

the blood, while many another has gone down to inglorious defeat simply for the lack of iron.  
NOTE—Nuxated Iron which is prescribed and recommended above by Dr. E. Sauer, and other physicians, is not a secret remedy but one which is known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturer guarantees successful and entirely satisfactory result to every purchaser or they will refund your money. It is dispensed by all good druggists.—A. Vertheim

plete prohibition for American soldiers, has come to nothing in six weeks, during which the wine and beer habit has become entrenched among our soldiers. Has the effort to establish an American standard been given up because friends of the soldier have been bluffed into silence that seems to give consent to this Frenchifying of our soldiers? And what about sacrificing in American homes to supply American barley to French brewers to make beer for American soldiers?

**Labor Should help.**

P. S.—The *Brewers' Journal* also says in its letter from Washington, D. C.: "Samuel Gompers, president of the American Federation of Labor, has sent out from his office in this city more than two million copies of a manifesto urging organized labor to oppose the prohibition amendment." That is a supreme argument for the National Dry Federation now in process of formation. It is "everybody's business" and so "nobody's business" among temperance forces to checkmate that costly appeal of the "wets" to workingmen. It can be checkmated if the temperance forces co-operate and might constrain the attorney general to use that carload of brewers' books and papers at the Pittsburgh federal court, seized for evidence, in which the relations of labor leaders to the liquor propaganda are shown. Organized labor should join organized Christianity to bring all that evidence to light, without fear or favor.

**WHAT HE WANTED**

"Could I interest you in a life of Napoleon, sir?"  
"You might," answered the busy man at the desk, "if there is anything in Napoleon's life that will show me how to make a greater profit out of the junk business. What did he do with his cannon when he scrapped 'em?" — Birmingham Age-Herald
