

Fragrance...

THE GIFT THAT LINGERS ON

Suddenly it all comes together, Christmas and the romance of gift-giving. Holiday nights, snow covered streets, keeping warm by an open fire. And the essence of it all is the gift of fragrance, remembered long after. You can be selective choosing fragrances from our holiday collection. Each scent is individual and intimate enough to create a mood or complement the essence of someone special. For her, subtle nuances that are delicate, romantic, provocative. For him, positive assertions that are lively, intriguing. Give the lasting gift of fragrance!
