

'Chained Heat' . . .

Continued from Page 12

Naturally the warden doesn't know Taylor, the officer, is running the other half of the business, but his snitches are getting close to finding out; that is, until Erika, leader of the "bad" inmates, dispatches them one by one.

While the whole premise is difficult to follow and even harder to believe, it is further confounded when the warden is killed by Taylor and her lead guard. They then kill Linda's best friend, who was in the jacuzzi with the warden when they got him (don't ask).

The death is pinned on Erika, making it possible for Linda to unite the downtrodden prisoners with Erika's "bad" girls against Taylor. The climactic riot and chase scenes end with Linda and Taylor on the roof of the prison. Guess who kisses the sidewalk.

It's terribly difficult to like anyone in this movie. It's even more difficult to cheer for the inmates in the final scenes; not even after they poke an evil and sadistic guard through the neck . . . in slow motion.

Unless you have a hatred toward the Hollywood-style beautiful woman, as the makers of "Chained Heat" obviously did, the only enjoyable part of this mean film is trying to answer the two main questions it presents. First, why can't Linda Blair, Sybil Danning, John Vernon, Stella Stevens and Henry Silva find better jobs than these? And second, how does Blair manage to keep her make-up and lipstick in such exquisite shape regardless of the situation? (She even comes out of solitary looking great!)

"Chained Heat" is scheduled to run through Sept. 29 at the State Theater, but it might skip town before then.
