The Grounds Department budget includes landscaping and fertilizing as well as snow removal. If more of the budget is spent on snow removal, Coffey said, less money is spent on fertilizer. There is no possibility of an emergency fund, he said.

Dasenbrock said the general operating budget for this school year is \$370,000 for permanent employees with an additional \$40,000 to \$50,000 for part-time workers. Part-time jobs, usually given to students and other hourly employees, include snow removal and summer work.

Operating expenses are \$94,000. Supplies and materials are \$90,000. These two categories include pesticides, gasoline, tools, seeds and trees, Dasenbrock said.

Dasenbrock said UNL has no equipment budget.

The administration reviews a list of equipment needs and allocates funds based on the list.

"We really can't depend on anything for new equipment," he said.

The Grounds Department also expects \$150,000 from outside sources in expenditure credit. Landscaping for a new building and hauling garbage are examples, Dasenbrock said.

Dasenbrock said although the budget has increased only 7 percent in 10 years, it has never been in the red while he has been at UNL. He said he attributes this to greater efficiency caused by better equipment and personnel.

The Physical Plant has only asked for additional funds from the Legislature once, in the mid-1970s, Amend said. He said a request is possible this year, but unlikely.

Anonymous callers help solve crimes

Although Crime Stoppers is seldom used by the university community, UNL Police Officer Bob Fey said he thinks it can be effective and should be used more often.

Crime stoppers offers witnesses a chance to be involved in prosecutions while remaining incognito.

As a non-profit corporation formed by citizens and supported by law enforcement agencies, Crime Stoppers has proven itself an effective nationwide crime-solving organization, Fey said.

"Crime Stoppers' purpose is to obtain information from people who might, for some reason or other, be hesitant to go to the police," Fey said.

When people call Crime Stoppers, they receive a code number. After describing the crime, they are asked to call back at a specified time. A Crime Stoppers representative then contacts the law enforcement agency involved to find out whether such a crime has been reported.

If the crime has been reported, Crime Stoppers finds out from the police what questions to ask the caller when he or she calls back.

Fey said the caller's information is checked against the information the police already have. Evidence provided by Crime Stoppers informants can be used in a court of law as long as the caller's credibility has been established.

If a caller's information helps solve a case, the caller may receive a cash reward of as much as \$1000, Fey said.

The phone number for Crime Stoppers in Lincoln is 475-3600.

ACTS gives students chance to realize fame

Talented college students may be able to showcase their talent for the entertainment industry through the American Collegiate Talent Showcase.

ACTS, now in its third year, is open to college students in all performing arts categories — dance, drama, classical music and contemporary music.

Students submit their entries on audio or video cassette tapes. The deadline for entries is March 6. Preliminary judging will take place March 15-18 at New Mexico State University.

The ACTS National Finals will take place April 14, after a one-week seminar on entertainment.

For more information contact: ACTS, Box 3ACT, New Mexico State University, Las Cruces, N.M. 88003, (505) 646-4413.
