By The Associated Press. New York, Dec. 29. - Substantial inquiry for transportation shares infused appreciable activity and sength into the stock market today,

were made. Buying of rails was most marked in the dividend-paying issues at gains of 1 to 6 points, but secondary or reorganized properties of roads traversing rich agricultural sections of the west and southwest were not

neglected.
Oils, steels, equipments and mo-tors displayed greater stability than at any time since the recent un-Heaval and various speculative specialties in the tobaccos food, chemical and utility groups scored variable advances.

Stronger Demand Expected Altogether the movement went far toward confirming the impression that much liquidation of the last fortnight had its inception in definite purposes in establish tax payments for the expiring year. The day's budget of news again included existing backward conditions in the industrial situation, the Iron Arg, for example, seeing no prospects of a "buying spurt" for several weeks. It is believed, however, that the first few months of 1921 will witness a general demand for supplies, especially railway equipment. Best prices of the day were registered, however, in the final hour. Rails under the guidance of Northern Pacific, overhauled all others, and drove shorts to cover in many industrial stocks, a strong tone ruling at the close.

Sales amounted to 1,100,000 shares.

Trading in bonds, especially the convertible or speculative issues, was in keeping with the demand for stocks, but Liberty bonds and most irregulars were irregular. Total seles par value, \$24,275,000. Altogether the movement went far to

Chicago, Dec. 29.—Bullish senti-ment revived in the wheat market May today, owing more or less to word arrived at Galveston and would load out 5,000,000 bushels within the next few days. Prices closed firm, 3½% 4c net higher, with March \$1.66½ and May \$1.61½ @1.66½ and oats 5½% 11/2c. In provisions, the outcome varied from 21/2c decline to 20c ad-

vance.

Bears at Disadvantage.

At first the wheat market showed a downward tendency, largely as a result of apparent absence of any sign of new export business. Besides, fresh declines in the value of cotton formed an element of depression. Later, however, liberal chearances of wheat and flour from the seaboard attracted extensive notice, and together with the numerous vessel arrivals at Gaiveston, put the bears at a disadvantage. A broader domestic milling domand for wheat was also reported, and country offerings were small, despite an advance of 1 cent for shipment to the guif. Talk of competition ahead from Argentina falled to act as an offset.

Indications of a relatively light movement next week helped to strengthen the corn after a weak start. There were signs, too, of a little European huying at both Chicago and St. Louis. Oats followed corn up grade.

Provisions averaged higher with grain. Jan. | 11.30 | 11.40 | 11.20 | 11.35 | 11.82 | 12.00 | 12.12 | 11.92 | 12.10 | 12.02 ed corn up grade.

Provisions averaged higher with grain despite lower quotations on hogs.
