

Problems Facing Assembly May Cause Trouble

Expected Consideration of Anti-Cigaret and Anti-Capital Punishment Bills Certain to Be Opposed.

Lincoln, Neb., Jan. 2.—(Special)—Problems confronting the Nebraska legislature which opens Tuesday for its 40th session and which may prove to be trouble makers include the following: An anti-cigaret law, forbidding the sale of cigarets in Nebraska. Major changes in the governor's code measure of two years ago. An industrial court law, similar to the one operating in Kansas at this time. Certain nonpartisan league measures.

Relief for Farmers.

Relief for farmers endeavoring to buy and pay out on land while prices for their products are lower than in years. Changes in parole and indeterminate sentence laws. Anti-capital punishment bill. Changes in "blue sky" laws. These are only a few of many propositions loaded with political dynamite that must be handled by legislators this year, which if not disposed of properly will prove to be a political death trap for a number of politicians who look to the present legislature as a stepping stone for something higher and better.

Governor's Popularity at Stake.

Upon the governor's handling of these propositions and the manner in which his suggestions strike the "home folks" depends, it is declared, his popularity with the legislature. For these members are going to do what the boys back home want done.

Nonpartisans Active.

While its members are working in house and senate, organizers in the state will be endeavoring to promulgate the organization policies out in the farm districts. A mass meeting of members of the league is scheduled to be held in Lincoln January 21 and 22, when the league will endeavor to bring to every legislator's attention the policies which it hopes to have written as laws on the Nebraska statute books.
