Every subscription is regarded as an open account. The names of subscribers will be instantly removed from our mailing list at expiration of time paid for, if publisher shall be notified; otherwise the subscription remains in force at the designated subscription price. Every subscriber must understand that these conditions are made a part of the contract between publisher and subscriber.

Display advertising is charged for on a basis of 25c an inch (one column wide) per week. Want ads 10c per line, first insertion, subsequent insertions, 5c per line.

## A Word To Frontier Readers

We wish to call the attention of those of our readers who are in arrears that we must have money to continue in business.

Many of our readers have doubtless thoughtlessly allowed their subscription to run along year after year, and we ask them now to come in and settle.

Payment of these little bills mean a good deal to the publisher as they run into hundreds of dollars. So we trust you will call, settle up, and start 1941 with a clean slate.

## OVER THE COUNTY MEEK AND VICINITY

Dwayne Borg, son of Mr. and Mrs. A. L. Borg, was brought home on Tuesday from the O'Neill hospital where he was taken last Thursday with pneumonia. He is improving and well on the road to recovery.

The church offers the only adequate remedy for all human ills. In times like these the church stands sure and steadfast offering consolation and hope to all. No one can afford to neglect church attendance somewhere.

Uncle Sam is going to have three investigating agencies. Of course, the main one is the F. B. I. But a new one is being set up in the Bureau of Immigration and Naturalization. It will be headed by Jose R. Espinoza who is a friend of Senator Chavez, of New Mexico. His organization will be designated as the Division of Special Inspections in which nearly 200 inspectors will be investigating the millions of aliens in our midst. The other investigating group is the Dies Committee, a special committee of the House of Representatives, which is now demanding that Congress do something about forcing the F. B. I. and other governmental agencies to cooperate with them. What the Dies

## CASH at Once

We advance money on all makes of cars—without delay or bothersome details—and without co-makers or endorsers. The most convenient way to get cash in a hurry and at low rates. If your car isn't paid for, ask about our thrifty refinancing plan. Usually we can reduce payments as much as one-third to one-half and provide extra cash besides.

Committee really wants is to have F. B. I. investigators at its disposal. Up to this time, the Dies Committee has denied these investigators and the committee members claim that the F. B. I. comes to them each week for information. The F. B. I. does not like to see the investigational agency in the Bureau of Immigration and Naturalization. It believes that this work should be done by the F. B. I. So now Congress may become the mediator between the three. Close cooperation is demanded and depended upon by many members of Congress. Espinosa is a small very dark man with bushy white hair. He was born in the United States and has had

many years of experience in the F. B. I. and for special investigating committees. He did a lot of work for the LaFollette Civil Liberties Committee.

Believe it or not—at this time dentists are having quite a time getting commissioned in the Army. Some dentists who have been drafted are being told that the Army has enough dentists and they have to serve as regular enlisted men until the service is in further need of dentists. Medical doctors, however, are commissioned more rapidly due to the fact that there is more need for this profession in our service.

## The real economy pavement is CONCRETE

Hundreds of towns and cities throughout America have invested relief funds with real wisdom and foresight by building fine-looking, long-lasting concrete streets.

Concrete is safer to drive on—skid-resistant wet weather or dry; free from chuck holes, ruts and bumps; more visible at night. Concrete makes the whole neighborhood more attractive. Concrete streets protect taxpayers—by guarding against

future burdens of excessive maintenance and frequent replacement. In the long run, they're far cheaper to own than so-called "low cost" streets that eat up funds with ever-increasing repair bills.

Experience in hundreds of cities proves that concrete is the real, low cost pavement. Don't be satisfied with inferior surfaces. Urge your city officials to invest in safe, economical concrete streets.

The first CONCRETE PAVEMENT laid in O'Neill was built in 1934. Why not ride over it today? Note its even and unworn surface. Investigation will show that the first cost was low and that maintenance costs have been practically nothing. This is an opportune time to extend this desirable improvement to your residential districts by application of Federal funds that are available for labor to construct the pavement.

## A WORD ABOUT "SPIKE JOINTS"

Unlicensed places which allow patrons to "spike" soft drinks are sometimes confused in the public mind with licensed beer retailers, who have no connection with the "spike" places and do not support their activities. The law prohibits "spiking" of any kind in beer outlets.

The beer retailers of your community are under the careful regulation and supervision of state and local authorities. We are able to report that the vast majority of dealers obey the law and are cooperating with the State Liquor Control Commission and the Nebraska brewing industry in their efforts to keep beer on a sound social basis.
