29 MILLION! A record never before approached! When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world! It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience. As you read this, a new \$21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the country, is already in production on light-weight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks. In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work. The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937. It is good to be producing the things America needs, and to be setting records on the way! FORD MOTOR COMPANY Ford

Mrs. R. L. Arbutnot drove to Norfolk, Wednesday on business. Mrs. Milton Hester and son, Bobby, of Lincoln, Nebraska, arrived on Tuesday and is visiting her brother, Walter Sire and Mrs. Sire.
