When Mrs. Fred Berry of Wayne was visiting historic places in Virginia recently, she spent considerable time in the old capitol in Richmond. While in that historic building, she looked for a guide and found a man who was unusually anxious to show her many of the features including the spot where Patrick Henry spoke the famous words: "Give me liberty or give me death." When she was leaving the building, she asked the guide about her fees. To her surprise and some embarrassment, she discovered that her guide was the Governor of Virginia.

Paul Stienburgh who was born at Bancroft, Nebraska, and raised at Hartington, is one of the number one employees in the law division of the Library of Congress. Another employee in that great library is Fred Berry, Jr., of Wayne. Activities in connection with national defense have greatly increased the volume of work that these employees must handle. The Library of Congress has more volumes than any other library in the world and contains information of vital importance to all our national defense agencies. For that reason, the employees are working overtime voluntarily.

IN CASE OF COCCIDIOSIS GIVE ACIDOX!

Give your pullets the Acidox Treatment. Acidox is given easily, in the drinking water, like Germonoze. Because its acid is controlled, Acidox does not throw the birds off feed. Greatest loss from Coccidiosis is in the set back to the birds, and delayed growth and development. They need a medicine that will help them resist the disease and reduce death losses without upsetting them. Give them Acidox. A 12-oz. bottle, to treat 300 chicks for 2 weeks, \$1.00.

"Telephoning sure has changed"

"I remember well the first time I used Long Distance—called back home from nearly 200 miles away. I waited half an hour to get through and then it was mighty hard to hear."

You can reach folks thousands of miles away in just a minute or two—and hear them almost as clearly as though they were right with you. Local service, too, is faster, more accurate, more dependable, than ever before.

Grandpa is right. Telephoning was like that when he was young—but it's altogether different now.

We are working constantly to make service better and better—more pleasing to you in every way.
