The rare books in the Congressional Library will not be damaged by bombs should the capital ever be attacked. Plans to safeguard these rare books have already been made.

Congressman Joshua Johns of Wisconsin, author of the bill which sets aside the Third Sunday in May of each year as "Citizenship Day" or "I Am An American Day," learned from this office that the Third District is planning quite an observance of this day on May 18. He joins the staff of the Third District office in sending greetings and congratulations to those young men and women who

have come of voting age and especially to those who have become naturalized American citizens. About two million American-born citizens become of age each year and about 180,000 become naturalized each year. With the arrival of thousands of refugees, the naturalization figures are going to mount annually. A majority of the approximately 6,000,000 aliens in the United States want to become American citizens. Uncle Sam with the aid of patriotic organizations such as the "I Am An American" organization is going to help them.

Pickets in front of the White House get more attention in newspapers than they do by the public here. For a week a dozen cripples paraded with signs asking for permanent jobs for cripples. Following them came about six or seven young men and women who

signs asking for peace. These were broken up by a bunch of enlisted men. One over-enthusiastic soldier went to jail for attacking one of the pickets. But the pickets were back again the next morning and nobody seemed to pay any further attention to them. Washington is used to pickets of all kinds.

In answer to questions: The so-called western hemisphere is four times greater in land area than the whole of Europe. Uncle Sam has assumed the responsibility of hemisphere protection but, in addition, we are now starting to

protect and defend the war flung British Empire upon which the sun never sets.
