At the completion of the four weeks, they will return to O'Neill, and Mr. Mathis will continue his regular duties visiting projects and contacting new students.

A Ford car belonging to Albert Clark of Inman, was taken from the streets near the Ford garage last Saturday night. The car was found the next afternoon about three and a half miles northeast of the city. The thief had taken two wheels off the car and had also removed the spare tire. E. C. Clark, fingerprint expert in the office of the state sheriff, came up Monday and took some fingerprints from the car and local officials are of the opinion that the guilty person or persons will be apprehended.

City garbage collectors say that some of the citizens of the city are using large barrels to store their garbage in for the driver to pick up. If our citizens wish our collectors to carry away their garbage it should be placed in medium sized garbage cans, so the driver can lift it into the wagon for dumping. If the collectors should miss any place if you call Mayor Kersenbrock, he will see that same is taken care of.

#### THE METHODIST CHURCH

V. C. Wright, Minister  
The Church school 10:00 A.M.  
H. B. Burch, Superintendent,  
Church School program 11:00 A.M.

Young Peoples worship service, 7:00 P. M.

The young people will hold a bake sale at the Golden Hotel Saturday afternoon, June 7, for the purpose of securing funds to take them to the Summer Institute at Stanton June 16 to 23.

In case of COCCIDIOSIS GIVE ACIDOX!  
Give your pullets the Acidox Treatment. Acidox is given easily, in the drinking water, like Germozone. Because its acid is controlled, Acidox does not throw the birds off feed. Greatest loss from Coccidiosis is in the set back to the birds, and delayed growth and development. They need a medicine that will help them resist the disease and reduce death losses without upsetting them. Give them Acidox. A 12-oz. bottle, to treat 300 chicks for 2 weeks, \$1.00.

## 6 CARS DIED IN OVERHEATED DEATH VALLEY TO PROVE THAT YOURS CAN LIVE LONG

New Oil a Life-Giver. 5-quart fill—None Added—Lasted all of 13,398 Miles....

more than Twice the mileage averaged by 5 other big-name oils in fiendish Destruction Test... Impartial... CERTIFIED

THIRST killed gold-feverish Forty-Niners in Death Valley. You can stand there today on our Hemisphere's bottom, 279 feet below sea level. And some of the worst heat on U. S. Weather Bureau records will be drying you up.

... America's hotspot! ... where 6 identical everyday cars scorched along, testing 6 different motor oils, till 6 new engines were junk. Every condition was the same for all. Qualified authorities eyed every move. Speed: 57 miles an hour for all. The Referee had bought 5 of the oils right off the market; millions know their names well. The other oil was decidedly new. And this new oil that authentically delivered more than twice the mileage averaged by the others is named

#### CONOCO N<sup>th</sup> MOTOR OIL

- Now on Sale here for Your Car

How could one fill of this popular-priced Conoco N<sup>th</sup> oil keep lasting—without one added drop—for an official total of 13,398.8 miles? How could Conoco N<sup>th</sup> oil outlast them all by 5,683 miles or more, even outlasting one "rival" by 8,268 miles!... Certified.

#### New Synthetic in Conoco N<sup>th</sup>

You know of vitamin synthetics... man-made... replacing Nature's life-givers sacrificed in some modern food processing. Similarly, the latest refining methods steal life-giving elements from motor oils. But more than making up for that today—in popular-

priced Conoco N<sup>th</sup> oil—is Thialkene inhibitor... man-made. (Conoco Patent 2,218,132.) It inhibits or checks the effect of foul leftovers created by the normal engine explosions. Thus Conoco N<sup>th</sup> stays more like its own good self... helps the engine keep fit—good way to save quarts.

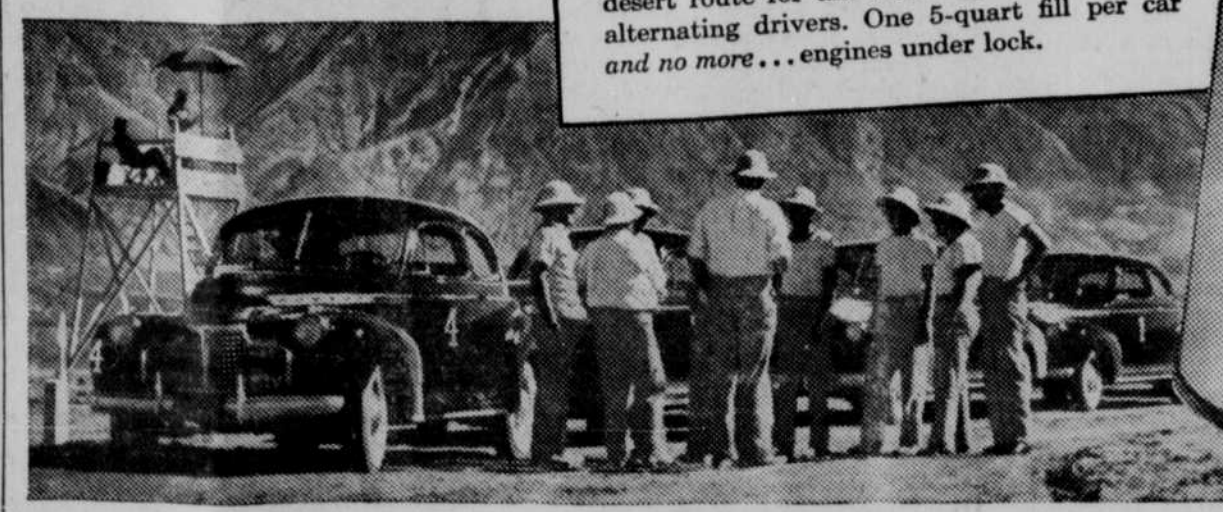

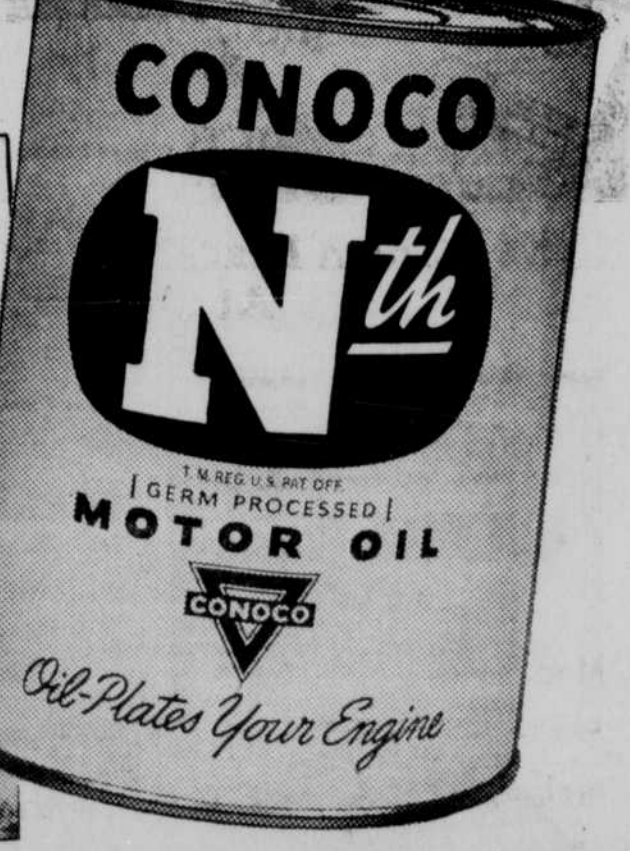

#### A triumph matching famed CONOCO OIL-PLATING

Another wondrous synthetic—long in use under the famed Germ Processed oil patent—still makes N<sup>th</sup> oil give your engine OIL-PLATING... lubricant that can't all quickly drain down from inner parts. Instead, it's able to stay plated up... on guard against wear in advance, while you are using Conoco N<sup>th</sup> oil. In addition you get the life-giving aid that foiled Death Valley... that eclipsed other oils tested... that made one 5-quart fill of new Conoco N<sup>th</sup> last 13,398 miles. Certified.

That's like a mad extreme—beyond the utmost allowed by authorities on the

subject. You'd never make your own car stand such proving-ground torture. But you want as wide a margin of engine protection and oil economy as your money will buy this Summer, and Conoco N<sup>th</sup> has nailed up plain evidence. Ask today for Conoco N<sup>th</sup> at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

CERTIFIED: I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.
