IN CASE OF COCCIDIOSIS GIVE ACIDOX!

Give your pullets the Acidox Treatment. Acidox is given easily, in the drinking water, like Germozone. Because its acid is controlled, Acidox does not throw the birds off feed. Greatest loss from Coccidiosis is in the set back to the birds, and delayed growth and development. They need a medicine that will help them resist the disease and reduce death losses without upsetting them. Give them Acidox. A 12-oz. bottle, to treat 300 chicks for 2 weeks, \$1.00.
