ELECTRIC CUSTOMERS IN THE NORTHEASTERN DIVISION

Become Part Owners of the Properties of the **Consumers PUBLIC POWER DISTRICT**

To the extent of **\$85,000.00**

Consumers TWINS SAY: "YOU CAN EAT YOUR CAKE and HAVE IT, TOO"

RELIABLE SERVICE

CONSUMERS POWER DISTRICT

CONSUMERS KEEPS ITS PROMISES

ELECTRIC customers of Consumers Public Power District in the Northeastern Division, now own an additional \$85,000.00 in properties of this division as a result of a scheduled bond retirement on January 1, 1942. In retiring \$85,000 outstanding bonds, Consumers follows a definite calendared schedule, and as each payment is made, the electric customers of the division gain that much additional ownership of the property. . . . It may seem a paradox, and might be best described by the old saying of "Eat your cake and have it, too," which is just about what customers of Consumers do. A definite percentage of the revenue is set aside each month in a SEPARATE FUND for the retirement of bonds in each division of Consumers Public Power District. That fund is earmarked for the payment

of bond principal, and it is not or CAN NOT be used for anything else. As these bond retirement payments fall due, the money is always on hand and ready for prompt payment on the exact date due. So, it may be said that while electric customers in this division are enjoying the multiple benefits of efficient, reliable electric service at unusually low rates, they—at the same time—their own, year by year, owners of large and small, are in their own electric properties so that eventually they will be the sole owners of the electrical facilities that serve them. Of course, in addition to the bond principal payments such as the one just made, interest on these bonds is also being paid on a regularly scheduled arrangement. In truth, then, Consumers IS YOUR OWN electric service institution, in which you acquire a greater equity each year.
