

As Bataan Fought on to the Bitter End

These photos of the heroic defenders of Bataan, whose long and gallant defense is an epic of courage seldom matched in the annals of war, were taken shortly before the peninsula fell into Jap hands. At left, Brig. Gen. M. S. Lough, Col. H. Browne and Capt. J. Sallee as they planned the fight in their sector. Upper right: Courageous to the last, generous even to an enemy, Yanks are shown as they gave aid to a dying Jap. Below: U. S. fighters as they ducked shrapnel fire somewhere on Bataan.

Keep 'Em Rolling and Keep 'Em Flying

Upper picture shows how, on the final assembly lines, the army's new medium tanks get their turrets and guns in a war production plant in the Cleveland area, where they keep 'em rolling as part of Uncle Sam's answer to Hiro-Hitler. Below is shown a view of mass production at the Beech Aircraft company plant in Wichita, Kan., where trainers for the army air corps are in the final stage of assembly.

Mass Decorations at Hickam Field

Here are two views of the decoration ceremonies at Hickam Field airbase, Hawaii, the largest mass decoration ceremony in U. S. army history. A total of 141 men received decorations—some of them the purple heart award—while bands played and fighter planes wheeled overhead in review. The men, many in wheel chairs, are assigned to duty at Hickam Field.

Jones Tells Congress About Rubber

Appearing before the Truman senate committee, investigating national defense production, Secretary of Commerce Jesse Jones painted a picture of the many practical difficulties in developing manufacture of synthetic rubber tires, etc. Photo shows Secretary Jones shaking hands with Sen. Harry S. Truman, chairman of the committee.

'Sea Jeep' Is Tested at Fort Knox

The amphibian personnel carrier, a purely experimental vehicle at this stage, is being tested by the armored force board at Fort Knox, Ky. This experimental water-wagon has been tested in the field, in the Ohio river, and on highways, where it has done a mile a minute. It carries eight men. Pictures show the "sea jeep" in and emerging from the Ohio river.

Scrap Drive

A Salvation Army lassie is shown inspecting a huge pile of discarded automobile license tags collected to be turned over to swell the "bag" in Philadelphia's scrap drive. The tags, gathered by a large automobile club, represent "mournful numbers" for the Axis.

HOUSEHOLD HINTS

If you have an electric range, try washing the glass window in the oven door with baking soda instead of soap.

Don't wash eggs before putting them in the refrigerator. Simply wipe them off with a dry cloth to preserve the natural bloom that protects the interior of the egg from the air.

If adhesive or gummed tape becomes too stiff to use, soften it with two tablespoons of warm water and half a teaspoon of glycerine.

If you have trouble keeping flower holders in place in bowls, stick them down by first dipping the holders in hot melted paraffin. This works splendidly and the water in the bowl will not harm the paraffin.

Do not "shake well before using" varnish or enamel. The shaking creates air bubbles and may cause an inferior finish. Pour liquid from the top of paint or enamel cans into a clean container. Stir the remaining pigment until it is smooth; then gradually add the top liquid, stirring until it is thoroughly mixed with the pigment.

'Torpedoed' Doesn't Always Mean 'Sunk'

This American tanker can testify to the truth of the above headline. The craft, blasted in halves by an Axis sub off the Atlantic, is now in an eastern port, much the worse for wear, but suffering no ailment that skilled shipwrights cannot cure. She'll go to sea again in the not too distant future. This photograph was released by the navy department.
