Do You Have What It Takes?

-- Optimism, Belief, Enthusiasm, Judgment, and Just a Little Nerve --

Remember back there as early as July of 1941 when the Officers of this Company predicted a grave shortage of gasoline, fuel and lubricating oils in 1942 and 1943? Do you recall how the wiseacre propagandist on the "street" laughed and told you such talk was just a lot of bunk and sales-chatter? Recollect how this Company advised you away last Spring to lay in your supplies of coal and fuel oil early lest your family might be cold before Spring arrived? Do you recall that the Valentine Oil Company said: "DON'T BE SURPRISED IF GAS RATIONING MIGHT START IN NEBRASKA ANY DAY"?

'New Oil Reserves Must Be Located'

Washington, D. C., Sept. 2 (AP). — Frank Buttram, president, Independent Petroleum Association of America, told the petroleum industry war council today

"we must definitely notify all interested parties that additional oil reserves must be discovered in the near future and immediate steps must be taken to do this."

He declared also government authorities must realize "we cannot possibly place a new stock of oil reserves on the counter at the present prices for crude oil."

Buttram said drilling activities have declined 50 per cent the last six months. He warned that "we may soon be called upon to supply practically the entire oil needs of the united nations war effort from oil produced in the United States."

EACH DAY'S DELAY LETS SLIP AWAY A GOLDEN

Opportunity

Requisition All Tank Cars For East

Washington, Sept. 3 (AP). Petroleum Co-ordinator Harold L. Ickes announced today the government had requisitioned from the mid-west and southwest all the remaining rail tank cars transporting gasoline there.

This might result in local shortages for these areas, he said, possibly requiring rationing or some other step to cut consumption.

The new requisition order, Ickes told his press conference, was expected to add around five thousand to the 68 thousand cars that last week delivered 823,260 barrels of oil daily to the now-rationed 17 Atlantic seaboard states and the District of Columbia. * * *

DO YOU KNOW THAT WHEN THE TANK CARS ARE TAKEN OUT OF THIS PART OF THE COUNTRY, AND GASOLINE TRUCKS MUST MAKE FROM 500 TO 1000-MILE HAULS ON CONSTANTLY WEARING TIRES OVER TOUGH HIGHWAYS,

AND IN ALL KINDS OF WEATHER, RATIONING OF THE MOST PAINFUL SORT HAS ALREADY HIT US, AND WE SHOULD NEED NO FURTHER EVIDENCE TO REALIZE IT?

CLOSE TO HOME

But did you know that close to your home, old Nebraska has the very choicest spot in the Central United States for the development of new oil fields, and the gasoline, fuel and lubricating oil so badly needed right now according to

several of America's foremost geologists, petroleum engineers and experts? And were you aware that the Valentine Oil Company holdings are planted squarely upon this choicest spot?

Neighbor . . . This Company is trying mighty hard to point the way for you to make a fine, clean, and scientifically correct investment. It is not asking that you put all of your spare money into this

undertaking, nor does it suggest that you even cramp yourself financially, but it surely does urge you to make an investment consistent with the evident needs of the moment.

Your money will be carefully expended in actual development, and will not go to any officer as salary. No one draws a salary until oil is actually found. Nor does 25 to 40% of your investment go to high-pressure salesmen. Therefore, we naturally must sell through high-class publications like this one. We would like to call upon every one of

you personally, but you know such a thing is impossible. However, an officer of the Company will be in your city soon, and if you will drop us a request by next mail we shall have him call upon you and explain our deal in detail, and without any obligation whatever to you. Do it right now!
