The Federal government is encouraging the farmer to produce more food and to do it as efficiently as possible. Your Congress instruction free of charge to any has appropriated money to offer person over seventeen years of age that may be interested in Production Courses. There are courses in beef, poultry, pork, sheep and dairy production of interest to this county.

Production courses can be given in the immediate vicinity where you live and in that way you will not have to drive great distances in order to attend one or more of these courses.

In order to organize a class in any one of these production courses, there must be an average enrollment of ten or more men and women. If you are interested in having one, or maybe more of these classes in your community, please get in touch with A. L. Mathis, Voc. Ag. Instructor, or C. F. Grill, Supt. of the O'Neill Public School. They will be glad to give you more details about these courses.

Rural school boards may be agreeable and interested in having one of these courses taught in the evenings at your school. Qualified individuals will be selected to instruct the classes that will be organized.

It is hoped that a number of classes can get under way in the very near future and be completed by the end of November. Therefore, contact Mr. Mathis or Mr. Grill immediately if you are at all interested in participating in one of these classes. It is possible for you to have the benefits of instruction of this type, but you will have to do your part by letting your wishes be known.
