

Farmers! Stockmen!

The peak of the livestock buying season is here. Buyers who come from long distances to buy Cattle want to buy NOW, since return trips are unlikely under present government restrictions.

Take advantage of prevailing high prices and active demand. Bring your livestock here for top returns.

The Automotive Mechanic of Yesterday Is the VICTORY SERVICE MAN of Today

Help him to help you

"SAVE THE WHEELS THAT SERVE AMERICA"

by getting a skilled service check-up regularly

Take the word of millions:

MORE PEOPLE GO TO CHEVROLET DEALERS FOR SERVICE

than to any other dealer organization.

Just how important the automotive mechanic's work is to the nation will be clear to all who consider the following facts*:

● Automobiles and trucks form the sole practicable means of transportation for war workers and war materials in many communities throughout America.

● In some sections, 78% to 100% of the workers drive by automobile to vital war plants.

● 2,314 U. S. cities, with a population of 12,524,000, depend on private cars for transportation;

The automotive mechanic—the trained, Chevrolet Victory Service Man—is the lifeguard of America's millions of cars and trucks. Help him to help you and America by getting a skilled service check-up at regular intervals.

*All statements based on a report compiled by the Michigan Highway Department and the Statistical Department of A. H. A.

54,000 communities depend entirely on motor vehicles.

● Six out of every ten farms use one car or more; 67% of farm car mileage is necessity driving.

● More than 65.2% of all war plants reporting in Michigan (a typical war production state) depend on trucks to haul their incoming and outgoing freight.

● Trucks haul nearly 100% of the milk supply of most large cities—and 58% of all livestock marketed in the U. S.

● Trucks are the sole transportation system serving our 54,000 communities not reached by railroads.
