The marketing situation will probably become more acute from now on. If you have livestock to sell, don't put off marketing them until it's too late. Prices are high and facilities for hauling livestock are still available. Bring them to this market for top returns.

### DO THEY REALLY?

What 360,000,000 People Believe

In every nook and corner of the world there are Roman Catholics — 360,000,000 all told — all holding the same religious beliefs, — all practicing the same Faith — all willingly under the religious guidance of the same leader, the Pope. These people form a cross-section of every country of the world, — the poor, the rich, the humble, the proud, the ignorant, the wise, — each satisfying his soul's demands through the Roman Catholic church.

Wouldn't it be interesting to know what these people really do, and do not believe? — this vast world army nearly twice as large as all other Christian sects combined.

What have you not heard about the Catholic Church? Most of what you have learned since your school days up to the latest magazine very likely comes from sources, either ignorant of Catholic belief, or anti-Catholic in sentiment. It is only just, to hear both sides of any story and it is with the thought that you will read our brief statements on Catholic belief and actions that we publish these articles.

Will you do us the courtesy of reading them each week. And will you write us concerning things Catholic which seem to you to be against common-sense itself? We assure you that our reply will be brief, courteous and to the point. Please write to: Catholic Information Society, 7800 Kenrick Road, St. Louis, Mo.
