give the people of the state the  
services they are entitled to, such  
as doctors, nurses and hospitali-

Perhaps you are aware that the manufacture of new cars and trucks stopped on January 28, 1942. There are only a few cars left in few dealers' stocks. The manufacture of such new cars and trucks will not be resumed until some time after the war is over.

Take good care of your present car or truck — keep it in 100% mechanical condition to carry you through the duration, as a contribution to the war effort.

**APOLOGY**

Two weeks ago we were forced to close on account of early prospects of Army or war production work. We are sorry that this was necessary, and we hope that this short closing period did not inconvenience you. However, a law passed by Congress after we closed makes it clear that the Armed Services do not require the services of men that have reached certain age limits. Therefore, I will continue to operate and manage this business for the duration to the best of my ability for your convenience and needs.
