

Personalities on Day's News Front

Shown at left is Lieut. Gen. George S. Patton Jr., a "native son" of California, who is a crack shot with a pistol. General Patton's armored forces have been giving Gen. Erwin Rommel's desert army in Tunisia something to think about. Center: Petite, attractive Mme. Chiang Kai-shek, first lady of China, who has become the American spokesman for China's fighting masses. Mme. Chiang thrilled great audiences here. Right: J. Lester Perry, president of the Carnegie-Illinois company, a subsidiary of U. S. Steel, shown as he appeared before the Truman committee investigating war production. Charges were made that false tests were made on steel which was being used by the navy.

Teamwork Keynote of Anti-Aircraft Artillery Success

In few branches of our armed services are teamwork and co-ordination more important than in the anti-aircraft artillery. Pictures shown here were taken during maneuvers at Camp Davis, N. C. Upper left: When the alert sounds, anti-aircraft crews must reach their stations in seconds. Dress is of slight importance, but they must have their rifles, cartridge belts, gas masks and helmets. They race to their posts. Right: This picture was made while the 90-mm gun was actually in full recoil. Lower left: Captain Rousseau peers through a slit in the battery commander's underground station to check on the operations of the crew.

First Radiotelephoto From African Front

A gun crew digs in and is on the alert during the battle for Gafsa, in Tunisia. U. S. armored forces under command of Lieut. Gen. George Patton Jr. in two days advanced 30 miles to recapture Gafsa and to go 12 miles beyond. Photo was flown to Algiers and transmitted from that point in seven minutes to Washington in the new two-way radio transmission system put to its first practical test by the U. S. army signal corps with the transmission of these radiotelephotos.

Winds Up in Tree

The idea was to "attack" at dusk, during Third Army maneuvers in Louisiana. But first, this paratrooper had to call for help to get down out of a tree.

Arabs Go Dry
Arabs rarely drink with their meals. If they become thirsty during dinner, they stop eating. They believe thirst is nature's warning that they have had enough.

Good News

Mrs. Paul D. Brown of Orange, N. J., admires the portrait of her husband, an air corps major. After hearing rumors of his death, Mrs. Brown had cabled for confirmation. The day after, stories were released telling how Major Brown commanded a Flying Fortress which took part in the raid on Vegesack sub plant near Bremen, during which U. S. planes blasted 19 buildings.

Chicago Cubs' Mascot to Be Goat

It's a goat instead of a bear that Manager Jimmie Wilson of the Chicago Cubs (left) will use for a mascot this spring, as his charges play exhibitions in and about their French Lick, Ind., training camp. Manager Jimmie Dykes of the White Sox (right) will have a similar fallsman. The goats' names are "Bunt" and "Homer."

Caution—Wrecked Plane Being Repaired

Surprised? So were we to learn that the two seemingly peaceful rural scenes depicted above really masked the repair and restoration to service of a wrecked U. S. air force plane. Members of the service group at Greenville, S. C., are taught to rescue, salvage, and repair wrecked planes in a battle area subject to air and ground attack at any time. At top, plane is covered by a screen which blends it into the disguise and makes it unrecognizable from the air. The "farmhouse" and "silo" in the background actually are engineering installations. Below, a realistic touch is added to the camouflage installations of the service group by these cows.

Block-Buster

This is a photo-diagram of the dreaded 4,000 pound super-block-buster, made in the United States, and dropped on Germany in night and day raids by American fliers and RAF men. Approximately 2,200 pounds of the two-ton bomb are TNT and other secret explosives. The rest are shell and fuses. Dropped from a plane 20,000 feet up, the bomb strikes the ground at pulverizing 600-mile-an-hour speed.

That Nagging Backache

May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body wastes. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
