Up Your Savings

There will be American justice for the savages of Tokio but our trial and punishment of Tojo and his criminals will cost blood, sweat, toil and tears and money. You can supply the money by upping your war bond buying through the payroll savings plan. Figure it out yourself and see where the money is coming from. How much does it cost you and your family to live each month? How much money is coming in from all members of your family? Put the extra money into war bonds, every penny of it. Let 10 per cent be only the starting point for figuring your allotment.
