WEEKLY NEWS ANALYSIS

Mediterranean Victories Prepare Way For New Allied Campaign Against Axis; Essential Production to Be Increased By Simplification of Consumer Items

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union

Under the watchful eyes of U. S. guards, Axis prisoners march in internment camp in Camp Atterbury, Ind. Since fighting in North Africa, many of these camps have sprung up throughout the country, the average concentration holding 2,000 prisoners and 500 American troops. Prisoners of war are treated under rules of an international convention.

MEDITERRANEAN:

Eyes Turn to Sicily

With Allied shipping reported massed in the Sicilian straits, all Italy awaited invasion.

Preparatory to the expected blow at the "underbelly of Europe," Allied airmen ranged over the Italian islands of Sardinia and Sicily, the Axis' remaining bastions in the Mediterranean following the fall of Pantelleria, Lampedusa, Lampione and

Airfields at Catania and Gerbini in Sicily were attacked. At Catania, enemy fighters rose in force to challenge the Allied assault.

Although Allied headquarters remained silent on their military movements in the Mediterranean, the Nazis reported that their airmen were engaging in running fights with large convoys off North Africa. The Axis also stated that the Allies had massed invasion barges at Bi-

Meanwhile, the Allies kept the move. Strong aerial formations at- eliminated. tacked Axis shipping in the Aegean sea, where the Nazis have fortified FOOD CZAR: the islands leading to the Grecian

SIMPLIFY GOODS: From Cradle to Grave

In an effort to increase production of necessary essentials, the government has ordered the simplification of more than 1,000 manufactured items. Elimination of frills and variety of sizes is expected to result in enough conservation of material to add to production.

The simplification order will affect Americans from the cradle-to-thegrave. Metal will be restricted in baby's cribs, and the length, width and depth of coffins will be limited. Cast iron kitchen utensils will be confined to 12 items, and 40 styles of enamelware have been eliminated.

Wood furniture will be reduced to 24 basic patterns. Whereas 1,150 types of tools formerly were made, only 357 now will be permitted. Production of electric bulbs will be cut from 3,500 types to 1,700. Feminine apparel will be simplified along with children's sportswear and rayon

AIR OFFENSIVE:

Cities in Flames

Bremen's big Atlas shipyards were rocked by a dozen bomb hits as American airmen continued their joint attacks with the RAF over German industrial centers. Results of the U. S. raid on the submarine base of Kiel were unobserved, as swarms of Nazi fighter planes arose to the defense.

While the Americans hammered the Atlas works, strong British units, bolstered by huge four-engined bombers, ripped Duesseldorf and Bochum in the Ruhr.

Blockbusters caused heavy damage in both cities, sweeping fires adding to the havoc. Mass evacuations were reported, and the German radio asked people in other districts to make room for the refugees.

Size of the raiding fleets can be gleaned from the Nazi claim of having shot down 46 planes, 29 of which were supposed to be the four-engined machines. German aerial activity meanwhile was limited to a short, sharp sally over a London suburb. where bombs were dropped.

FOREIGN AFFAIRS: World Cooperation

American participation in the establishment and maintenance of post-war peace was unanimously recommended by the house foreign affairs committee.

In a simple, 35-word resolution which it recommended to the house and senate for approval, the committee declared: " hereby express itself as favoring the creation of appropriate international machinery with power adequate to establish and to maintain a just and lasting peace, and as favoring participation by the United States

Introduced by Representative J. W. Fulbright (Ark.), the resolution was passed after being stripped of the phrase calling for the organization of an international body to prevent future aggression, and to maintain law, order and lasting peace. Since this section touched on the highly controversial subject of an Axis guessing about their next international police force, it was

Wanted by Congress

Shortly after a bi-partisan group of legislators conferred with President Roosevelt and suggested that he appoint a single czar to handle the food situation, the War Food administration prepared issuance of a report dealing with unfavorable crop and meat prospects.

Led by Senator Walter George, the five senators and four representatives urged that a single authority be delegated to co-ordinate production, distribution, preservation, rationing and pricing agricultural com-

It was reported the President suggested an appropriation from 11/2 to 2 billion dollars for subsidies to be used in "rolling back" the prices of foods. Many legislators oppose the subsidies, contending the money used only will have to be repaid in

In commenting on crop prospects. the War Food administration declared floods in the Midwest and dry weather over the great plains have caused considerable damage. Meat slaughter and dairy production have failed to approach expectations.

DRAFT:

Fathers Due for Call "Fathers will be placed in uniform

at least by the last quarter of this

With this stamment the War Manpower commission, headed by Paul V. McNutt, announced the Selective Service board's new draft policy in informing employers to prepare for replacement of married men with

children in industry after October 1. In addressing 5,500 employers who have filed replacement lists with state draft directors, the WMC said that after July 1 the employers also should plan to release the childless married men within six months.

Although the WMC's remarks were directed to the 5,500 employers, it indicated that its new policy would be broadly applied throughout all industry. Speaking before a house appropriations subcommittee. Draft Director Hershey said 10,900,000 men will be in uniform by December 31. During the first six months of 1944, 115,000 men will be inducted monthly, Hershey declared.

SHIPPING: Shipping losses have been lower in June than in May, in which the smallest losses since Pearl Harbor were sustained, says lute the flag.

ARMY: An army of about 21/2 million men will be maintained for ed buying for export, was voiced some time after the war, according when government officials conferred to statements to a house subcom-

RUSSIA:

Action in the Center

Official announcements pertaining to the Russian front continued to be as confusing as the fighting.

While the Reds claimed to have thrown back German counterattacks in the Orel region in the center of the line, the Nazis reported the continuation of the strong Russian offensive in the Caucasus.

In neither sector, however, did either side claim any major advance. In relation to renewed Russian activity in the center, the Nazis said the Reds were massing huge forces there, apparently to press the initial attacks of a week ago when big holes were punched in the German line.

Bolstered by the addition of American planes arriving under lendlease, Russian airmen continued sweeping attacks over the German rear. Military installations and transport were bombed.

OIL:

'Situation Worse'

exporting to an importing nation in

natural resources but rather because of a scarcity of labor, transportation and other factors.

While stating that imports of oil would have to be increased from Venezuela, the Caribbean and Mexico, he declared that California will not be producing sufficient crude by the end of the year to take care of the Pacific war theater and her own

Ickes also blasted the Office of Price Administration for its handling of the gasoline rationing, declaring the OPA was too lenient in its allotments. He said home owners could expect fuel oil rationing next

CORN: Plan Call on Loans

be allowed 30 days to liquidate their | bayonets? loans. The call would not interfere with the agency's previous move to

shelling, grading and hauling the corn off the premises.

MEAT PRICES: Down 10%

Answering to President Roosevelt's "hold-the-line" order, retail prices of meat have been "rolled back" 10 per cent, a move that will save housewives an average of three cents per pound.

The "roll-back" will be accomplished by government payment of subsidies to meat slaughterers to cover their costs of livestock.

Although the action will reduce meat prices, consumers will be compelled to eat even less beef. The War Food administration announced that federally inspected slaughterers had been ordered to reserve 45 per cent of their steer and heifer production for the army.

Flat price ceilings on meat have been drawn by the OPA for four classes of stores, starting with the small independent doing less than \$50,000 worth of business a year, and ending with the large operator with an annual volume over \$250,000.

NAZI SPY:

Intrigue in Hawaii

In November, 1941, Bernard Julius Otto Kuehn offered his services as a spy to the Japanese vice-consul at Honolulu. In a confession to the FBI, he said he volunteered to supply the enemy with information about the national defense of the U. S.

Shortly after, Kuehn worked out a system of signals to transmit intelligence of American fleet positions to the Japs. According to testimony. the signals were developed through a window light in the dormer of Kuehn's home near Pearl Harbor.

Mrs. Kuehn played a prominent role in the intrigue, according to the FBI. In 1939, her daughter operated a beauty parlor designed to attract "navy business," and in 1940 Mrs. Kuehn visited Japan, returning with geographical literature describing American and British islands in the Pacific. Kuehn, first sentenced to death, was later committed to 50 years at hard labor.

WNU Service, Union Trust Building, | spite of their respective handicaps, Washington, D. C.

Today there came to my desk a mimeographed sheet from the Office of War Information. It was headed "The Nazi Slave Labor Society."

As I read that title, my mind shot "We are rapidly passing from an back to a very few days before this writing, one of the days when your capital was tense over the coal With these words Petroleum Ad- strike from one end of Constitution ministrator Harold Ickes forecast an avenue to the other, and on both increasing shortage of crude oil. sides of the Potomac. I say "Con-Such a shortage, Ickes said, would stitution" avenue instead of "Pennnot develop because of a lack of sylvania" (which you and I have come to feel is the main street of Washington) because this coal strike struck deep into a lot of offices and bureaus beside the White House at one end of this historic thoroughfare and the Capitol at the other.

Naturally, Harold Ickes, in his offices looking down the mall from that strange modernistic pile that is the new Interior building, was concerned. He was, at that moment, responsible head of the soft coal mining industry and the industry wasn't functioning.

Naturally the members of the War Labor board were concerned. The board's existence was threatened.

Two Worries

Over across the Potomac in that marvelous architectural achievement, the Pentagon building, where the army is housed, officers paced the floor of their pentagonal offices. feeders, it was reported Commodity They had two worries. One: Will Credit corporation planned to call its | there be a coal shortage that will hold up production of important war supplies? Two: Will we have to go Under the proposal, farmers would out and push people around with

I haven't mentioned what was going on at the Capitol or in the White redeem 35 million bushels of corn House. Plenty. Every enemy of on the 1938-'41 crops, effective July 1. the administration, every friend of Decision to call the 1942 loans the administration who was angry was reported reached after the War | at Lewis, everyone who was for 100 Food administration, headed by per cent prosecution of the war-Chester Davis, turned down pro- and they weren't necessarily differposals for requisitioning the corn. ent people, but people with different The WFA said requisitioning only ideas-was yelling for Lewis' eyewould incense farmers and leave brows and some of them were the government with the problem of threatening the President if he didn't bring them in (on a silver charger) for breakfast.

Inside the White House, there nation. You'll be vice president next ment on top. were meetings which, because of the presence and absence of certain persons, I would like to report in greater detail but I can't-that will have to be left to history.

As I write these lines, I cannot predict the aftermath of the action which began late one afternoon on June 3 when, contrary to reports circulated earlier in the day, a statement was issued from the White House ordering the men back to the mines by June 7. But between these lines of that statement was the story of "Franklinstein" and the creature which he created, as dramatic, if not as tragic, as the horror tale by the gentle Mrs. Shelly, written early in the 19th century.

Self-Destroyer

A copy of that book ("Frankenstein") is on my table as I write. On the last page are the lines spoken by this strange being which the hero had created, hoping to raise the standard of humanity but which, alas, had found itself heir to the human weaknesses and turned against his creator. The "being," just before it destroys itself, speaks

to its creator: thou didst seek my extinction that I might not cause greater wretchedness; and if yet, in some mode unknown to me, thou hast not ceased to think and feel, thou wouldst not desire against me a vengeance greater than that which I feel. Blasted as thou wert, my was still superior to agony

(You really ought to read the book-it's far superior to the movie

But why do I bandy with this ancient tale? Because I do believe that all of us build, materially or physically, creatures which come back to haunt us.

Look at the record of John Lewis and Franklin Roosevelt. John, born to the pits, a man who won to literacy, yes, to scholarship the hard way.

Franklin, born to the purple. Both endowed with that indomitable something that lifted them, in | Society"-it can't happen here!

The soldier on the battlefield, utterly unable to comprehend why men strike while he is risking his life for a fraction of the pay the strikers demand, cursed and threat-

ened; the miner, with many just grievances, stood confused, looking for his oracle to speak, but cringing under the sneers at his lack of patriotism. Small-minded bureaucrats, more interested in saving their faces than saving the country. sputtered and strutted. Lewis and Roosevelt, the two men who, working together, might move mountains (of coal and coalition) were forced to square off against each other, the public backed the government and, as usual, decided the issue.

Oh yes! That "Nazi Slave Labor

They were given the shock treatment and usually went home within one or two hours. In cases where the patient was too upset after the treatment he received further shock treatment at a mental hospital.

Compared to the risk of other methods of treatment of the same neath. In a similar case I laid kind of mental ailments, the electricshock treatment is much safer as to mental or physical injury.

The big point about being able to go to other than a mental or municipal hospital, receive the shock treatment, return home and continue the treatment for the weeks necessary, n excellent condition, except that is that the family and patient have the bottom is rusty and has two no feeling of shame or humiliation. pin holes. It is too good to throw To get this latest form of treatment away, considering the scarcity of so easily is certainly a real change

Answer: Coat the bottom of the Nursing Along 'Heart Condition'by Resting

A few years ago a physician visiting a southern city made the acquaintance of another visitor who appeared to be "resting" all the time. He informed the physician that he had undergone a serious operation three months previously and as he has a "heart condition" he wished to consult a local heart specialist and asked the physician if he knew of one he could recommend. The physician, being a stranger, was unable to refer him to a heart specialist but asked him the nature of his heart condition.

"I have a heart murmur and after having this operation I was told to be careful of my heart."

"But a heart murmur is not serious nor was your operation of a serious nature." Operation for rupture or hernia is just changing the structure of the tissues in this region; there is no pus, no inflammation, and little or no shock. "This Summer is the most convenient should not have taken much out of

A short examination by the physician revealed no enlargement of the crease in the heart rate was about 10 beats and the heart was back to its normal rate within one minute. He walked slowly up and down stairs twice. The heart rate increased 16 beats and returned to normal within one and a half minutes. He was told that his heart was strong and exercise, not so much rest, was

About 10 minutes later, he took his own pulse, walked up and down stairs twice, took his pulse again, waited the minute and a half and found the figures for the heart rate exactly the same as those found by the physician. He was therefore advised to take his daily rests but to take two walks daily, lengthening the walk one block every two days.

The point here is that while a heart murmur was present and he had undergone an operation three

HEALTH BRIEFS

Q.-What causes dizziness in the head?

A .-- Dizziness may be caused by (a) liver disturbance, (b) ear disturbance, (c) blood pressure disturbance and other causes. Q .- Is there anything that can be

done for high blood pressure? A .- Hypertension (high blood pressure) is just a symptom. Have your physician try to find the cause. May be caused by nervousness or by some disturbance of blood vessels.
