Dick Robertson went to Sioux

City Tuesday, where he visited his brother, Ray, who is in the hospital there. Ray had the misfortune to get a piece of steel in his left eye and will lose the sight in that eye.

What You Buy With

No More Brass

On land or at sea our fighting men do their many chores by the sound of a bugle. All sorts of uncomplimentary epithets are used to designate the bugler, but nobody has yet been able to provide a satisfactory substitute for a bugle although recordings are used at some perma-

oard ship the men fall in at the order of "Pipe muster." On land the bugler sounds "Assembly!" But no matter where the bugle is used thousands must be bought out of the money we are investing in War Bonds. Back the attack with an ex-tra \$100 Bond in the 3rd War Loan.

Released by U. S. War Department Bureau of Public Relations MACHINE GUNNERS IN NEW GUINEA-The Japs finally have admitted the loss of Buna, New Guinea, where American and Australian task forces annihilated 15,000 of the enemy. In this victory the 32nd United States Division covered itself with glory. This task force was built up around a former American National Guard division drawn from Wisconsin and Michigan, but now comprising officers and enlisted men from 44 states. As a result of their heroism in action 55 citations for Distinguished Service Crosses were awarded. Manning this machine gun are, left to right: Pvt. Lawrence L. Leishman, Peoria, Ill.; Corp. Rodney C. Reiner, Manitowoc, Wis., and Pvt. Martin Denueli, Cumberland, Wis.

Views of Congress

Dr. A. L. Miller,

CLOTHES for Warmth!

Last week I sat in the House gallery with a Major who is on duty at the Pentagon Building across the Patomac from Washington. The House was transacting routine business. Someone remarked that it didn't seem as though the House was doing much. Immediately the Major answered, "To me this is the most inspiring sight in the world. Yonder sits in the speaker's chair, and while he occupies that chair, one of the most powerful men in the world. When I become discouraged seeing all the authority being exercised by the armed forces and the executive agencies, and the resulting confusion, I just think of the last time I visted the House of Representatives and I am comforted by the thought that as long as it functions we can still keep our American Way of Life."

In the announcement of the transfer of Lt. Gen. John L. Dewitt, formerly commanding general of the Fourth Army and the Western Defense Command, to the post of commandant of the Army and Navy College here in Wash-O'Neill fullback, returned the ball ington, we noted that it was statto the Bassett thirty. The quarter ed he was born at Fort Sidney,

the Bassett eleven.

At the opening of the second quarter the Eagles were again on war, I often wonder if any future the march, gaining three first dictator with aggressive tenden-

Eagle line withstood four attempts to score, thus regaining the ball. The Eagles kicked, and the half ended opportunity as Bassett was again running the ball deep into O'Neill territory.

After 7½ minutes of play in the second half, O'Neill scored on a pass from Riley to Selah. Riley smashed through center for the extra point. The fourth quarter again found the Eagles on the found the Eagles on the spite losses in battle and those march, but they were stopped on the Tiger fifteen.

O'Neill evidenced much improvement in its passing game. Of ten attempted passes, five were completed, two were intercepted, and one went incomplete. Riley, Fox, Vorce, Hungerford and Adamson were outstanding.

Last Winter's Anti-Freeze discarded due to obsolescence totaling 6,800. In addition it has transferred 2,100 planes to other agencies. In 1940 the navy had only 1,744 aircraft. I doubt if we will again permit an ambitious dictator to speculate on the question of our ability to rearm, for I think we have learned a lesson that might be summed up in the old expression "an ounce of pre-

Shotgun shells. Farmers and types of motor vehicles who plan should register immediately with o use again this winter anti- their dealers. Good Returns

D. B. Perkins, one of the pioneer and prosperous farmers and stockmen of the southern part of the county, was an O'Neill visitor last Friday and made this office a pleasant call, extending his sub-scription to The Frontier, of which he has been a reader for many

Mr. Perkins says that the peo-ple of the South Fork country have now another crop, besides the hay, cattle and hogs that are bringing the people of that section of the county a lot of money, and that is alfalfa seed. He said that a neighbor of his had already threshed 100 bushels of alfalfa seed and had about another 100 bushels to thresh, and that he finds a ready market for it at 33 cents per pound, or \$19.80 a bushel. Growing alfalfa seed at that price is like finding a gold

Believe It Or Not

Every day throughout the country there appears in many of our newspapers a group of cartons with accompanying explanations under the caption, "Believe It or Not." The facts presented are strange, unusual, bizarre. For instance; John Violin; signs his name simply by drawing a violin; a cow exists with a pieture of Abraham Lincoln on her side. But in spite of all the oddities pictured, not a single violation of the physical laws on fauture has been presented. What is the "law of nature" It is single violation of the physical laws on fauture has been presented. What is the "law of nature" It is the plan of God directing all creation (including men so far as concerns man's function of growth and sense feelings) and the moral law which is set down to be freely obeyed by man. The physical law way which is set down to be freely obeyed by man. The physical law way its of the read and an acorn in growing into an oak tree. By the natural law which is set down to be freely obeyed by man. The physical law of not many life according to the rules set down to be obey the moral law or not. He can say: "I do not choose to bey the moral law or not may life according to the rules set down by God." The bassing and the moral natural law which is set down to be freely obeyed by man. The physical law its of the first of the moral natural law which is set down to be freely obeyed by man. The physical law its of the moral natural law which is set down to be freely obeyed by man. The physical law is "fog good; avoid evil."

It is significant that even the light of their reason, simply be first of water of what opinion a fellow man."

It is significant that even the light of their reason, simply be light on the plays a part of their nature. Do you do, do you live by that begoed on the principle, "Do oto debt and unchangeable; it binds all men everywhere and at litimes. The Catholic Church all times. The Catholic Church can be had by unities of the moral law of the moral law of the moral law of the mor
