

As Allied Troops Battle Nazis in Italy

When the American Fifth army landed on the beach at Salerno it was subjected to some of the most desperate German fighting of World War II. For several days the Germans poured ammunition down on the beach. But the Fifth army held its position. Aided by planes and warships it gained the initiative and, as the British Eighth army rushed toward the fight, the Germans were apparently resorting to defense tactics. Left: U. S. infantrymen hunt for German snipers in this house during their advance in Italy. Right: Supplies for invading troops are unloaded despite constant strafing and bombing by German planes. This Bazooka Toots Death at Axis Tanks

The similarity in the appearance of the army's new rocket gun to a popular freak wind instrument caused the gun to become known as the "Bazooka." Its official name is "Launcher Rocket, AT, M-1." It has enough hitting power to disable a tank, yet it can be used by one or two soldiers in places which are inaccessible to regular, large, anti-tank guns. Left: Loading a rocket into the rear of the Bazooka. Top right: This is the anti-tank rocket shell which is fired by the Bazooka. Bottom right: The proper way to hold the Bazooka. The new weapon is more than 50 inches long and approximately three inches in diameter. It is open at both ends.

ON THE HOME FRONT

with RUTH WYETH SPEARS
A LONG mirror with a table at each side makes an ideal place to dress. Here you have it with the old mirror from the buffet described recently. The mirror is turned end-wise and the irregularities of the frame covered with cream colored curtains of unbleached muslin hung from a rod attached to the picture molding. But that is not the last of the old buffet. The turned legs are here made into lamps. The base

of each is a square piece of one-inch lumber which is screwed through the center to the largest end of the leg piece. An electric fixture such as is often used in candle sticks is then inserted in a hole bored in the other end. The lamp shades and the butter-tub stool are covered with the cream colored muslin.

NOTE—The complete story of the old buffet and how its various parts were used is in BOOK 7 of the series offered with these articles. Directions for making a spool table similar to those illustrated are in BOOK 5. Also the directions for the rug illustrated are in BOOK 5. Booklets are 15 cents each. Send your order to:
