# Makes driving safer

QUICK response when you step on the gas—instant, strong acceleration—power to jump past the car ahead—speed to avoid a reckless driver dashing out of a side street—that's what uniform, balanced Red Crown Gasoline provides. Its use makes driving safer. It has remained Nebraska's favorite motor fuel for a generation. It is the highest grade of refined gasoline.

\*\*\*

To eliminate gas knocks and power loss due to high compression caused by carbon, and to meet the needs of the new high compression motors, use genuine high compression fuel—RED CROWN ETHYL GASOLINE. This improved fuel is a combination of always-reliable Red Crown Gasoline and Ethyl Brand of Anti-Knock Compound. It gives motors smoother operation and more power—more responsive, more obedient power. Try it in any motor. Costs a bit more by the gallon but less by the mile.

For motoring economy and satisfaction buy gasoline and motor oil where you see the Red Crown Sign—the sign of quality products and prompt, courteous, obliging service everywhere in Nebraska.
