The Family Budget

The family budget and ours are alike in one particular—outgo must not exceed income if success is to be attained.

Telephone revenues must be sufficient to meet all expenses, such as taxes and wages. They also must provide a fair return on the value of the property.

Otherwise, reliable service cannot be provided to the public and additional money cannot be obtained from investors to expand the business to meet the increasing demands for service.

Your telephone needs can be met satisfactorily only when the telephone income is sufficient.
