

# Electric Service costs very little

ONLY 2 per cent of the average family income is spent for electric service. Isn't this percentage rather small when we think of the comfort, convenience and pleasure which electric service brings to the home?

A few of our politicians like to make political capital by agitating for lower electric rates. Would they not be doing the people a greater service if they investigated the cost of some larger items in the family budget?

On October 17, 1913, by a vote of 43 to 12, the Court of Impeachment voted to remove William Sulzer from the office of governor of the State of New York. It was the first time in the history of the state that a governor has ever been impeached, and its most powerful lesson was the power of a Tammany Boss's wrath.—M. R. Werner in Tammany Hall.

### Wisdom in Pictures

One of the finest cartoons that has been published in some time is that showing a lot of Tammanyites rushing to save a struggling farmer who had fallen into the water. When the drowning farmer saw who was approaching him, he yelled back: "Go away, you fellows; I don't want to be saved."

### CLARA BOW GETS THREE TONS OF MAIL

Her Fan Mail Averages 25,000 a Month P. O. Records Show.

Three tons of mail, for the delivery of which over \$5,000 was spent, recently removed from the dressing room of Clara Bow, popular Paramount actress, who appears in her latest starring picture: "The Fleet's In!" at the Royal theatre, Sunday and Monday, October 21 and 22.

The removal was caused by the increasing amount of space this huge amount of letters occupied. It was found that over 250,000 letters were included in the huge stack, and were sent, the little star from every civilized country in the world.

According to Post Office officials of Los Angeles, Clara Bow's fan mail will now average 25,000 a month. The actual amount of mail received by the star during the month of May was 33,727 letters. For the month of June, the number increased to 35,339; with every indication that this number will be increased to over 40,000 for the months to come this year.

The three tons of letters represented the accumulation of one year's fan mail received by the star. Another month, and the star would have been crowded out of her dressing room

apartment. Every one of these letters were answered with an autographed photograph being sent. A special staff has been assigned to handle Miss Bow's fan mail, and their work increases daily.

Miss Bow tops any star in moviedom for the amount of fan mail received. Her closest rival is Charles "Buddy" Rogers, another Paramount star, who is now receiving over 19,

000 letters a month, or more than the late Valentino when at the height of his career.

Miss Bow refused to have the mail destroyed, the letters being stored away in the studio store room. As far as it is humanly possible, Miss Bow personally goes over her mail, realizing that her work on the screen is greatly influenced by the wants of her tremendous following.
