The Annual Meeting of the Nebraska State Teacher's Association will be held for the third district at Norfolk Nebraska from October 31st to November 3rd. The purpose of these meetings is to raise the efficiency of the teacher of the state to the highest possible standard by enabling them to hear lectures by the best educators of the country, to come in contact with their fellow teachers and to exchange ideas with others of the profession.

The week of November 5th to 11th has been set aside as American Education Week to be observed by all schools in the United States. Teachers are asked to make a special effort to get their school officers and patrons to visit their schools during this week.

American Educational Week is observed each year during the week that includes Armistice Day. This is a week of rededication to the cause of universal education. Its purpose is to develop a fuller understanding of the schools, their ideals, achievements, and needs. The program, arranged by the National Education Association and the American Legion, is centered around the seven objectives of education, namely: Health; Worthy Home; Membership; Mastery of the Tools, Technics, and Spirit of Learning; Vocational and Economic Effectiveness; Faithful Citizenship; Wise Use of Leisure; Ethical Character.

Tuesday, November 6, Home and School Day, emphasizes that home is the central institution by which civilization is advanced.

Wednesday, November 7, Know Your School Day, has for its central thought the school itself.

Thursday, November 8, School Opportunity Day, stresses that work is the foundation of progress. The advance of the individual and of the nation depends upon discovering the special talent of each worker.
