

# It May Be Urgent

## When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

## Fletcher's CASTORIA

**Hanford's Balsam of Myrrh**  
Since 1846 Has Healed Wounds and Sores on Man and Beast  
Money back for first bottle if not suited. All dealers.

## MOORE'S EMERALD OIL

### Bum Cloth

Mr. Hewitt—From his conversation one would gather that he was a tailor.

Mr. Jewitt—I don't get you.

Mr. Hewitt—Always talking about cloak of friendship and mantle of charity.

Social uplift—the lorgnette.

### The Impossible

Woman—Big, strong man like you begging. You ought to look around for work.

Tramp—Excuse me, lady, but I've got such a stiff neck I simply can't look around.

The experiences of others seldom influence a man's actions.

## WILL DO ALL IT CLAIMS TO DO

### Mrs. Steele Says of Lydia E. Pinkham's Vegetable Compound

Pratt, W. Va.—"I was so weak and nervous that I was in bed most all the time and couldn't sit up and I am only 30 years old. I saw your advertising in a magazine and after I had taken three doses of Lydia E. Pinkham's Vegetable Compound I could feel that I was better. After taking two bottles I began doing my work and I feel like a new woman. I recommend the Vegetable Compound to my friends and say it will do all it claims to do and more. I will gladly answer all letters I receive."—Mrs. S. E. STEELE, Pratt, W. Va.

Wonderful and pure. Makes your skin beautiful, cures eczema, pruritus, freckles, freckles, freckles. Outcomes remove freckles. Used over forty years. 25¢ and 50¢. Ask your dealer or write Dr. C. M. B. Co., 2975 Michigan Ave., Chicago.

## KREMOLA

## Out Our Way

## In Sixty Years

From the Council Bluffs Nonpareil A year ago an Iowan 60 years old prepared a paper to be read on the occasion of a birthday celebration. In reviewing his 60 years of life he named 91 inventions within the period of his life time which have contributed materially to human welfare. He began with the electric dynamo and ended with the thermos bottle. "Living has been transformed," he declared. "We are surrounded by comforts and conveniences," he said, "which were undreamed of 60 years ago." Continuing he said: "I was born in a village in northern Illinois, and for a part of the time until I was 15 years old lived on a farm. In that day and in that place, generally, people were poor and life was simple. The homes of my childhood were not built to keep out the winter's cold nor the summer's heat; at least they did not keep out the cold nor the heat. They had none of the comforts of our homes today. No furnace, no gas stove, no storm sash, no screens, no plumbing, no sewers, no bathtub. They were heated with wood burning stoves, the fires went out at night. The kitchens were bitterly cold in winter and infernally hot in summer. We had a cistern water all outside the house. For lighting kerosene lamps. I remember well how the snow drifted across the floor of my bedroom in winter, and how the fleas took possession of the house in summer.

In spite of all these conditions which now seem intolerable, people enjoyed life in those old days. And even those conditions were some improvement over the boyhood days of Abraham Lincoln.

Within 60 years more than a score of electrical inventions including the dynamo, motor, incandescent light, storage battery, electric railway, fan, flatiron, vacuum cleaner, toaster, stove, washing machine, ironer, coffee percolator, curling iron, warming pad and corn popper. Most of our readers are familiar with thermostat, phonograph, dictaphone, kodak, photograph, film, motion pictures, telephone, typewriter, typesetting machines, wireless telegraphy and telephony, airbrakes, automatic couplers, sleeping cars, photo engraving, barbed wire, steam turbine, self binder, combination harvester, corn picker, internal combustion engine, automobile, bicycle, pneumatic tires, pneumatic tools, weather forecasts, mail delivery, gas, gasoline and kerosene stoves, fountain pens, safety razors, shaving cream, airplanes, rotary printing presses, machine guns, smokeless powder, reinforced concrete, steel construction, skyscrapers, paved highways, concrete bridges, X-rays, radium, coal tar dyes, mercerized cotton, synthetic silk, synthetic perfume, wrist watches, pajamas, rubber heels, union suits, creameries, cream separator, incubator, window screens, open plumbing, sectional bookcases, adding machines, comptometer, package foods, newspaper comics, pasteurized milk, antiseptic surgery, anesthetics, fuel oil, subways, transcontinental railways, luncheon clubs, North and South poles reached, Africa explored, bacteria, helium, dirigible airship, thermos bottle.

Not all the discoveries in 60 years are listed herewith. Now who wants to go back to the good days?

### "SMALL TOWN STUFF"

A traveler in Minnesota, losing his directions and becoming confused, thus accosted a Swede whom he met in the road. "Say, my good man, can you tell me where I am? ... I am lost; where is Northfield? ... 'Ay don't know,'" replied Ole. "Ay nevarane bane dare? ... 'I am lost and want to get to Minneapolis; can you inform me where that is?'" asked the

Good Idea. "How is it Bill has two caddies and you none?" "One's mine—he keeps track of Bill's score for me."

Q. Did the United States have much foreign trade with Europe during 1927? H. H.

A. Shipments to Europe during the fiscal year, 1927, were \$2,397,000,000, or 48 per cent. of all our exports. Imports were \$1,268,000,000. The United Kingdom and Ireland paid nearly \$1,000,000,000 for our products; Germany, \$43,000,000; France, 234,000,000; Italy, \$142,000,000, and the Netherlands, \$143,000,000.

## Smart Fur Jacket

The short fur jacket goes smartly with the new circular skirts in wool. The above model is of beaver, belted in suede leather and comfortably loose. For walking in crisp Autumn air there is no happier garment.

(International Illustrated News)

traveler? ... "Ay can't tell you, ay nevarane bane dare, elder? ... "Well you surely can tell me the road to St. Paul? ... "Ay nevarane bane to Saint Paul, ay yust stay har," said Ole. ... Becoming provoked, the traveler said, "what the hell do you know, anyway? ... "Ay don't know var much, but ma nevarane bane lost," said Ole. ... A friend of mine was talking to this same Swede, and said, "wasn't that a wonderful flight of Lindbergh's? ... 'A don't know,'" said Ole. ... "Don't you know about Lindbergh's flying across the ocean? ... "Nevarane herd uv das feller Lindbergh," said Ole. ... "Well, he flew across the ocean, all alone, something no other man ever did, and astonished the whole world, and Ole, you should be very proud of him, he is a Swede! ... "Vell," said Ole, "et's just abot time the Swedes wuz doin' something, da haven't done anting sance Yohnson whipped Yefries."

### Don't Give Up the Test!

The successful preliminary test just made, off the Maryland coast, of one interesting new device for escape from a sunken submarine, and the numerous tests which the navy plans soon to make of other apparatus for the same purpose, are sure

No Love Lost. From Pathfinder. Professor: Why don't you answer me? Student: I did, professor. I shook my head.

Professor: But you don't expect me to hear it rattle from here, do you?

Such Ignorance. From Titi-Bits. Mrs. Dubb (at concert): She has quite a large repertoire, hasn't she? Mrs. Wubb: Yes, and that dress she's wearing makes it look all the worse.

to meet the enthusiastic approval of the American public. I well become laymen to accept without question the statements of many officials experienced in submarine operation, which go to show that many serious and complicated obstacles stand in the way of a solution of the problem of rescue from a wrecked submarine. The citizen who makes light of these obstacles in an impatient, know-it-all manner is obviously under-informed concerning the real difficulties of the task. But this is not to say that the lay public is not justified in clinging to a demand that the problem should be solved even though it seems impossible. We have just passed through one whole century during which men have steadily been accomplishing in one decade what experts of the previous decade called impossible. The perseverance now shown by the United States navy in continuing to seek a way to equip submarines with a device for escape which will not impair the undersea boat's efficiency as a fighting craft, recognizes this teaching of modern history at its full force and value. It does more. It accords with a spirit of accomplishment which, since pioneering days, have become ingrained in the American people. This spirit, when given full play, can always show that a group of swivel-chair experts, gravely shaking their heads, are nodding not so much in thoughtful-minded dissent as in plain sleep.

### THE SEA

I saw it on a cloud flecked day, When back and forth the sunlight went, As if the heavens' busy loom Were on a dappled weaving bent

Afar there hung the crowding mist Against the dry and sombre sea, And ever at the crazy's foot The chant of breakers came to me.

A scarlet crab upon the beach With lazy motion fled the tide, And sea gulls sought the lifting crest.

To lightly poise and briefly ride A clumsy craft of fisher folk With borrowed grace of wave swept by.

And came a homely melody Across the billow, winnowed high

And oh, I loved the wise old sea. The wood me with its throaty song.

And showed me meekness great as might

And peace as long as leagues are long.

From Maude de Verse Newton in the Christian Science Monitor.

### THE THIN BLUE LINE

From the Providence Journal On the 16th of this month the Grand Army of the Republic will meet at Denver, Colo. This will be the 62nd in the list of national encampments, the first of which was held shortly after the close of the Civil war.

The Grand Army of the Republic has become, in the course of time, a thin blue line. Its youngest members are gray and grizzled veterans; its oldest members are well-nigh centenarians. Nearly two full generations have passed since the surrender of General Lee at Appomattox.

In a sense, the meeting at Denver will be a pathetic spectacle. It will eloquently emphasize the ravages of time. But to the discerning it will speak more eloquently still of glory and honor, the undying fame of the Boys in Blue and a Great Republic made greater by their unforgettable courage and devotion.

### SLICED PERSIMMONS

Big, ripe persimmons make a delicious and unusual dessert if sliced, like peaches, and served with thick cream.

### Threat or Promise?

From Pages Gales, Yverdon.

Mother: Why didn't you call me when M. Clive kissed you?

Daughter: He threatened me.

Mother: Threatened?

Daughter: Yes, not to kiss me any more.

Q. How are the foundations laid in Venice so that houses are not washed away? M. D. A. The city of Venice is almost entirely built upon mud flats and the foundations of the buildings are secured by piling.

## Dye-Making Industry

### Difficult to Master

Adolph Junck, the millionaire former brewer of San Francisco, said on disembarking from the Leviathan in New York:

"The bottom has fallen out of the English home-made dye boom and many large fortunes have been lost. The English thought that with a few stolen German recipes they could rival the German dye industry. Well, it wasn't so easy."

Mr. Junck drew a trade paper from his pocket.

"German dye-making is difficult and complicated," he said. "If you don't believe it, listen to this:

And he read from the trade paper:

"Beta-namidoalzarin is the reduction of one of the oldest alizarin colors known, namely, alizarin orange, which chemically is nitro-alizarin. When beta-namidoanthraquinone is subjected to the identical reaction which produced from anthraquinone sulphonic acid the first synthetic anzarin—that is, melting of the product with caustic alkali at high temperature—a dihydroanthraquinone is obtained."—Rehoboth Sunday Herald.

## Dorothy's Mother Proves Claim

Children don't ordinarily take to medicines but here's one that all of them love. Perhaps it shouldn't be called a medicine at all. It's more like a rich, concentrated food. It's pure,

wholesome, sweet to the taste and sweet in your child's little stomach. It builds up and strengthens weak, puny, underweight children, makes them eat heartily, brings the roses back to their cheeks, makes them playful, energetic, full of life. And no bilious, headachy, constipated, feverish, fretful baby or child ever failed to respond to the gentle influence of California Fig Syrup on their little bowels. It starts lazy bowels quick, cleans them out thoroughly, tones and strengthens them so they continue to act normally, of their own accord.

Millions of mothers know about California Fig Syrup from experience. A Western mother, Mrs. J. G. Moore, 110 Cliff Ave., San Antonio, Texas, says: "California Fig Syrup is certainly all that's claimed for it. I have proved that with my little Dorothy. She was a bottle baby and very delicate. Her bowels were weak. I started her on Fig Syrup when she was a few months old and it regulated her, quick. I have used it with her ever since for colds and every little set-back and her wonderful condition tells better than words how it helps."

Don't be imposed on. See that the Fig Syrup you buy bears the name, "California" so you'll get the genuine, famous for 50 years.

### Determined to Have Auto

A twelve-year-old Norwich (Conn.) boy made an unusual attempt to steal an automobile part by part, apparently with the intention of reassembling it at his convenience. The car was taken in a trade by a local dealer, and there being no room for it in the garage, was left out in the open. First the carburetor disappeared, then the generator and clutch, and finally the wheels. By this time the car was being closely watched and the arrest of the boy followed.

### Active Cigar Butt

When a lighted cigar butt was tossed out of an eight story window in a Pittsburgh building it first struck an awning over a sixth floor window. From there it bounced to a fifth floor awning, thence to a second floor awning and to the ground, leaving enough ash to set fire to each one of the three drapings.

### At the Side Show

"The Fat Lady is in love with the Armsless Wonder."

"If he can make love without arms he's a wonder."

SAY "BAYER ASPIRIN" and INSIST!

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years.

DOES NOT AFFECT THE HEART

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark of Bayer Manufacture of Monocrocinacid of Elberfeld.

## When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. An effective anti-acid like Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

## PHILLIPS Milk of Magnesia

### Cuts Brain Tissues Away

Doctor Forster, professor of surgery at Breslau, has performed an amazing operation. He lifted a patient's scalp with keen edged instruments, broke skull bones with forceps, and cut away certain brain tissues—thus curing the patient of epilepsy, the dreaded disease of the brain. The patient remained conscious throughout.

## Kill Rats Without Danger

A New Extremicator that is Wonderfully Effective yet Safe to Use! K-R-O is relatively harmless to human beings, livestock, dogs, cats, poultry, yet is guaranteed to kill rats and mice every time.

Avoid Dangerous Poisons. K-R-O does not contain arsenic, phosphorus, barium carbonate or any other deadly poison. Its active ingredient is a squill as recommended by the U. S. Dept. of Agriculture in their latest bulletin on "Rat Control."

Many letters testify to the great merit of K-R-O.

"One of our customers purchased a can of K-R-O and put it out according to directions and a few days later picked up 42 dead rats."—Hays Pharmacy, Philadelphia, Pa.

SOLD ON MONEY-BACK GUARANTEE. 75¢ a tin or your druggist or direct from us at \$1.00 delivered. Large size (four tins as much) \$2.00. The K-R-O Co., Company, Springfield, Ohio.

## K-R-O KILLS-RATS-ONLY

SIoux CITY PTG. CO., NO. 43-1928

### Swiss Bomb Hailstorm

In an effort to break up a hailstorm and prevent damage to crops Swiss scientists recently bombed the clouds with high explosive rockets, says Popular Mechanics Magazine. Opinion after the experiment was divided, however, as to the value of the result achieved.

### A Cool Proposition

Editor—I'm afraid these jokes leave me cold.

Would-Be Contributor—Then why aren't they the very thing for your summer number?
