

EDUCATIONAL NOTES.

A large number of our schools in the county held their Patron's Day on November 8th and in spite of the bad roads the teachers report an excellent attendance of the patrons. This gives evidence that Parents are really interested in the school work and make an effort to come to their schools if some one gives them a definite invitation.

Mrs. Golden, a representative of the National Parent-Teachers Association, will be in the county on December 5th and 6th. Mrs. Golden has the reputation of being an excellent speaker. Plans are being made for group meetings of the Parent-Teachers Associations to give each association and any one else who is interested an opportunity to hear her. A schedule will be published next week.

Many of our rural schools are organizing Parent-Teachers Associations. The following districts in the county now have organizations: Stuart, Atkinson, O'Neill, Inman, Emmet, District No. 110, District No. 88, District No. 228, District No. 157 and District No. 138. Several other districts have declared their intention of organizing associations in the near future.

The patrons of District No. 157 met Friday evening, November 16th, to organize a Parent-Teachers Association. The teacher, Miss Edna McCarthy and pupils gave a short but very interesting program. Mrs. Luella Parker, County Superintendent, gave a short talk on the aims and advantages of the Parent-Teachers Associations. Officers were then elected as follows: Gerald Dustko, President, Frieda Hoehne, Vice-President, Mrs. G. Beckwith, Secretary and Mrs. Wm. Schmore, Treasurer. An appetizing lunch was then served by Miss McCarthy. Twenty members signed up for this organization.

A Halloween Program and Pie Supper was held in District No. 121. The proceeds which amounted to \$29.28 are to be used for play ground equipment. We think this is an exceptionally fine report since there are only four pupils in this school.

District No. 120 have purchased a new piano for their school. The teacher and pupils of School District No. 157 purchased play ground equipment for their school with the money earned from their box supper.

District No. 51, of which Miss Gladys Zinky is teacher, held a very successful program and box social. The proceeds of which netted \$21.20. This district is planning on organizing a Parent-Teachers Association very soon.

District No. 181, of which Miss Lortia Shaw is teacher, have used the money earned as premiums on their fair exhibit to start a library.

District No. 193 has the distinction of being the only school in the county having 13 pupils, 12 of whom are related and all having the same name.

The following districts have been visited by the County Superintendent during the past week: District No. 12, 24, 34, 36, 84, 142 and 193.

FACTS ABOUT NEBRASKA.

Nebraska's electric consumption for August exceeded that of the same month of the preceding year by 16 per cent as against a national increase of 12 per cent. Of the 42 million kilowatt-hours generated something less than three million, of 7 per cent, were produced by water-power. Nation-wide 40 per cent of the August output was from hydro plants.

Two counties of Nebraska now have a voting strength equal to that of the whole state 40 years ago when in 1888 Governor Dawes defeated J. Sterling Morton with 72,825 votes to the latter's 57,634.

Nebraska had 194 operating telephone companies at the close of 1927, serving 254,888 subscribers, not including individual farm lines that paid for switching service, numbering 13,195 customers.

In one county in Nebraska there is shown to be no harness shop by the assessor, who returns 1511 horses and 1512 automobiles.

FACTS AND TRADITIONS OF THE UNITED STATES NAVY

1. The U. S. Navy has had but four Fleet actions, and in each one has captured or destroyed every enemy ship.

2. No U. S. Naval ship has ever been in the hands of mutineers, while in other Navies, whole squadrons and fleets, have been in the hands of mutineers.

3. The U. S. Navy is the only Navy in the world that owns a Royal Standard by capture, taken at York, Canada, by Commodore Chauncey.

4. The U. S. Navy holds the record for the capture of 17 British Ensigns in one day, at the Battle of Lake Champlain. This beats the capture of sixteen by the French at the Battle of La Hogue.

5. In the war of 1812-1815, the U. S. Navy captured or destroyed every ship put in the Great Lakes by Great Britain.

6. There has never been a mutiny of any sort in the Marine Corps, hence its motto, "Semper Fidelis."

7. The CONSTITUTION took during the War of 1812, 1,100 prisoners. The U. S. Navy did not lose during the entire war, 1,100 officers, sailors, and marine prisoners.

8. The U. S. Navy possesses in the Constitution frigate the greatest man-of-war that ever sailed the seas. She did five unprecedented things:

(a) She knocked down the stone forest of Tripoli.

(b) She escaped from Admiral Blake's squadron of seven ships, after a four days' chase without losing a gun, a boat or an anchor.

(c) She defeated the Guerriere, a crack British Frigate, in seventeen minutes after firing the first broadside wrecking the Guerriers, which lost 179 men.

(d) She shot every spar out of the "Java" frigate in a running fight, without taking in her royals, that is to say, licked her enemy without taking off her coat.

(e) She captured the "Cyane" and "Levant" at the same time without being raked once, while every broadside she fired was a raking broadside. In addition, she ran the blockade of British ships seven times. She never lost her Commanding Officer, she never went aground, the largest number of men she ever lost in a fight was eight. She was in commission more than eight years.

9. The chest measurement of recruits in the U. S. Navy is the largest of any Navy in the world.
