

High School News

Editor Helen Pinkerman
Assoc. Editor Ambrose Rhode

Editorials:

Did you ever stop to consider what is the one biggest business in O'Neill? Is it the Interstate Power Company, the Armour plant, or some other commercial industry in the community? We believe that important though these industries are, they must take second place, and give to the schools the rank of first place in importance to the community. The schools of the town touch, in a very personal way, some six hundred fifty pupils and and through them either directly or indirectly the influence of the school is felt in practically every home. How desirable would O'Neill be as a place in which to live if the school and its influence were lacking? It is interesting to note that persons who are considering moving to any locality are almost certain to inquire concerning the schools and churches of that community. If these institutions are unsatisfactory that place is immediately ranked "below par" as a desirable site for a home.

Supt. Guy C. Miller.

"Education will remain long after the cost is forgotten."

HELEN.

We miss Helen Schwisow, our friend and schoolmate. Friends such as she, are hard to find and hard to give up, and we sorrow at her loss.

She gladly stayed at home and helped last year so that her brother, Harlow could finish his last year at O. H. S.

Although Helen missed a year of school and was behind her class, she was plucky enough to see the advantage of school and was willing to do her best while taking the part of "Mother" at home.

by Helen Pinkerman.

EDUCATION AND NEWS WRITING

Murder, crime (in its many phases) divorce, and athletics occupy big space in the American newspaper of today. They are spectacular and it is that which the masses "appear" to demand. Do they demand this sensational scandal sheet or are they willing to read of world politics and peace, of invention, of history, education, and race progress? It is said that the tastes of people are shown in the papers, magazines, and literature that they read. These very papers, magazines and literature are great educational forces in the home.

We are starting a class in News Writing with a three-fold purpose: (1) to study and learn discrimination in reading the newspaper of today as an educational factor; (2) to study the principles of composition and style through News Writing; (3) to present an interesting school paper to the community.

SCHOOL SPIRIT.

By Ambrose Rhode.

School spirit is the feeling that pervades the pupils of a school and makes them stick together and resolve to see things through whether to victory or defeat. It is the feeling which causes hope to be ever alive within breasts whether they are on the enemy's ten yard line or the enemy on theirs. It is the spirit that makes us see and feel as one body. It is the feeling of pride we have when one of our men makes a touchdown or basket, and it is the feeling of sympathy we have for our team when things aren't running smoothly.

Now, having told what school spirit is, I shall proceed to tell how it is displayed. The only way, to date that we

have found of displaying our school spirit is to all turn out for the games, track meets and other school activities and as the saying goes "Yell our heads off." School spirit doesn't mean going to a football game and sitting still like a bump on a log. When the cheer leader gets out in front for the yell as she does, give her your backing. Cheer and yell as lustily as you can and don't weaken at the tail end of the yell! Besides showing your school spirit it cheers the players and fires them with the will to do their best. The football season is over and O'Neill High hasn't shown as good school spirit as she should have. In fact, she hasn't shown any school spirit that is noticeable. True she has turned out quite well for the games, but beyond a few whimpers has made practically no noise.

Now basketball is here, then baseball and track. Come on Gang! Let's show a little school spirit when we have a chance.

DID YOU KNOW:

1. That Cherry County is larger than Rhode Island or Connecticut?
2. Nebraska is the home of Arbor Day?
3. That there are 427 species of birds, 100 species of mammals, 65 kinds of native trees and about 200 kinds of grasses and sedges in Nebraska?
4. Nebraska produces more beef per capita than any other state?
5. There are 7,242 miles of railway in Nebraska?
6. There are more telephones in Nebraska than in Great Britain?
7. Did you know that Ak-Sar-Ben is spelled backwards, Nebraska?
8. In 1890 football players thought that long hair was more important than shin guards or helmets?
9. That the average debts of each person in the U. S. is \$1650 per person?
10. If all the money of the United States were divided equally among the people we would each have \$365?
11. Did you know that there were 405 blind people in Nebraska?
12. That 6.5 per cent of the deaths of Nebraska was caused by intoxicating liquor?

WHAT DO YOU EAT?

I have observed that the vast majority of people are consuming a diet that is inadequate in supplying the needs of the human body. A diet commonly consumed by city or rural people at home or in public eating places consists of meat, potatoes perhaps a canned vegetable, bread and butter, pie and coffee.

This type of diet is largely lacking in minerals and vitamins or in regulating and protective foods as they might be called, which are extremely important in the maintenance of good health. If you are one who consumes such a diet you will probably ask, "What can be done about it since it is impossible for you to take a course in scientific meal planning?"

No, it is not possible to equip every one with a scientific knowledge of food selection. However there are certain rules which may be followed regardless of whether you are a housewife planning meals for your family or a traveling salesman selecting your food in a cafeteria.

Each days diet should include: At least one pint of milk, one egg, two or three vegetables other than potatoes, one of which is eaten raw; two or three fruits one of which is a citrus fruit; one cereal each meal using whole grain cereals whenever possible; four tablespoons of butter; meat not more than once each day; one iron rich food (spinach, liver, molasses, prunes, dried beans).

Miss Latta.

THE HYPROCRITE LOAF.

There are times when the house-

wife is forced to substitute some other dish for meat; at other times she likes to add variety to the daily menu by introducing substitutes.

One substitute, Mrs. R.—has used successfully, so successfully in fact that her guests thought they were eating meat. Mr. R.—likes to call this particular dish the "Hyprocrite Loaf" because she says it appears to be a meat loaf but contains no meat.

The recipe is:
2 cups of kidney beans
1 1/2 cup of great American cheese
1 cup soft bread crumbs
1 egg
1 small onion
1/2 tsp. salt
dash of paprika

Put the kidney beans and onions through the food chopper. Beat the egg well and combine with the other ingredients. Bake in a well buttered loaf pan in a moderate oven. Serve with tomato sauce.

HOME ECONOMICS.

Plans For The Future.

The Home Economics Department has planned to give one hot dish at noon to the pupils who bring their lunches to school. This is being done to help the children who are underweight to gain. It will also prove beneficial to others.

The Home Economics girls will begin this project next week. A fee to cover the cost of the food will be charged each pupil. Beginning next week a weekly menu will be published. Miss Beighley offers the following from her department:

"Math" in Egypt

Indianapolis News: Wise men of Egypt knew Euclid's mathematical methods fifteen centuries before the famous Greek organized the subject and set his material down in such perfect form that college boys still study "Euclid." Proof is available through the translation of the "Mathematical Papyrus" which lies in the collection at the Hermitage museum, and has long challenged the best efforts of Egyptologists. A report from Leninograd states that this papyrus has finally been deciphered. It dates back to the eighteenth century before Christ, "Mathematical methods applied in the papyrus are almost 1,500 years ahead of Euclid, corresponding entirely to the present time," the dispatch asserts.

Seventeen O'Neill High School students, who are enrolled in the Normal Training Department, wrote in two or more of the seventeen subjects offered in the County Teachers Examinations held Saturday, November 24, in the high school assembly room.

The first grade celebrated Thanksgiving by a party Wednesday afternoon. They played games and Miss Biglin gave them each a surprise.

The seventh grade had a pep spelling contest last week. Nono Bressler won the prize.

ATHLETICS.

All Stars Win Over High School

Score 13-0.

Playing on a sleet covered field here, "The O'Neill All Stars" defeated "The O'Neill High School 13-0. The "All Stars" heavy team was too much for the light team of the High School.

During the first quarter "Rex" Brown plowed through the High School line for a touchdown, making the score 6-0. Trying for the extra point "Duke" Downey drop-kicked and made it. The score being in favor of the "All Stars" put some fight into the "High School" boys and they held them for no scores during the second and third quarters. In the last few minutes of the game Jack Arbuthnot playing half-back on the "All Stars" cut around right end for a touchdown leaving the final score 13-0.

Bruce Rummel.

The Basketball Schedule for this season consists of the following games:

December 14—Inman	Here
December 21—Stuart	Here
January 11—	Open
January 18—Inman	There
January 23—Atkinson	Here
January 25—Stuart	There
February 1—Long Pine	Here
February 6—Neligh	Here
February 8—Orchard	There
February 13—Atkinson	There
February 15—Long Pine	There

Official basketball practice started Monday night, December 3. There were nineteen men out to the first practice of this season, Elwin Thompson being the only letter man back on the squad this year.

Mr. Brokenicky called a meeting of all the boys in High School for the purpose of organizing an inter-class basket ball league. Each team will meet every other team several times during the season. A "World Series" will be played off the last week in February.

Mr. Brokenicky has finally managed to get the girls hopping by organizing a girls Volly Ball team.

Many of the girls are in favor of some recreation and are anxious to get started.

We are also planning on a large girls pep organization.

THE COMMERCIAL DEPARTMENT

There are 21 students enrolled in the Beginning Typewriting class; five of these wrote perfect fifteen minute tests last week. The best speed record made was by Dorothy Youngkin, who wrote 28 words per minute for 15 minutes with 3 errors. Dorothy increased her speed this week to 33 words per minute with three errors.

In the Beginning Typewriting class the girl with the best accuracy record is Nellie Toy, while Austin Shriner leads the boys.

Ella Dahlberg has some very nice specimens of Penmanship among the exhibits in the Commercial Room.

Improvements made in the Commercial rooms gives them a nicer appearance. Besides some redecorating we have new chairs, two new typewriting

desks, a new typewriter, typewriting cabinet and new bookkeeping table tops and ink wells. The tables have been refinished, and the chalk trays repaired.

There are seven students registered for advance typing. Last week Loretta Saunto made a record of 60 words per minute for 15 minutes with 6 errors.

The Advanced Shorthand class had a contest Wednesday to see who could read the greatest number of lines in three minutes. Phoebe Abdouch, who read 57 lines, placed first while Vira Eidenmiller was a close second with 56 1/2 lines.

THINKING.

Think of the ocean, when waves are blue;
Think of this prairie's emerald hue;
Think of the rivers of great renown;
Think of the things in its little town.

Think of the mountains, with great white crest,
Think of the wonderland of the West,

Think of the pines that forest crown;
Think of this wonderful little town.

Think of the city's rush and din,
Honors to gain, and wealth to win;
Think of this country's grassy gown;
Think of something in our own little town.

Think of the low white houses that friendly stand,
Of simple pleasures and helpful hand,

A cordial welcome for king or clown
I'm thinking of the things in this little town.

By Ambrase Rohde.

LISTENING IN.

Sorry Fresh: No sir I don't think I deserve zero in this test.
Mr. Brokenicky: I don't either, but it's the lowest I'm allowed to give you.

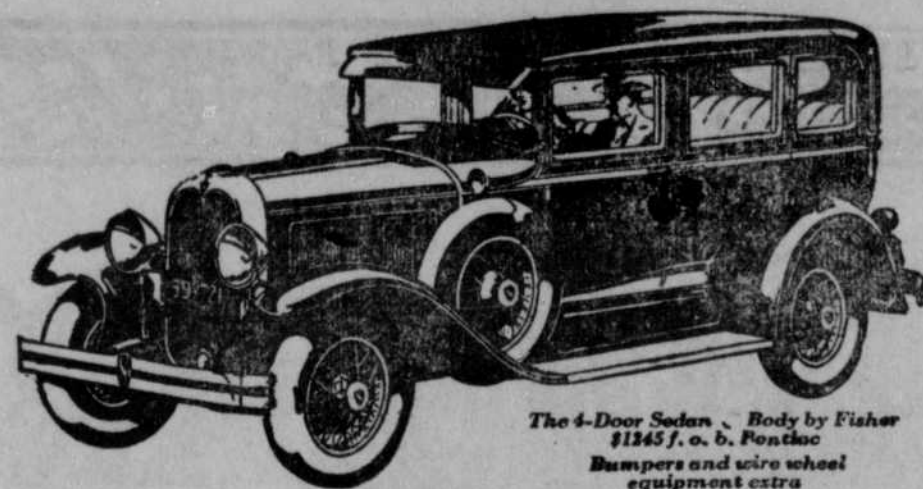

(At Glee Club) Levi Fuller: "What I want to know is, am I a tenor or bass?"
Miss Turner: You are Not!

POWER COMPANY IN BIG CHICAGO DEAL

Utilities Power And Light Buys \$20,000,000 Bank Building.
