"The Frontier" O'Neill, Nebr.

Civil Government held a debate on the question: Resolved: That the pardoning power of the Governor of Nebraska should be limited more than at the present time. Harold Sexsmith, Clarence Ryan, and Charles Graham upheld the affirmative and the negative view was defended by Edith Getscher, Merle Ohmart, and Florence Rosler. A vote of the other sixteen members of the class gave the negative the advantage over their opponents by the narrow margin of a nine to seven majority.

DOMESTIC SCIENCE.

And the Raid Begins.

The Domestic Science girls began raiding the kitchen Thursday in preparation for the semester of cooking. They scrubbed the sinks, tables and drawers, washed the dishes and other utensils, and cleaned the cupboards with much energy as they are very anxious to start cooking.

Although they are very anxious to start it is very evident that if they asked the upper classmen they might find out that it is not so terribly much fun to stand over a hot stove and stir something whether ones arm is tired or not. Eh! What, you suppose classmen who know?

But let the Freshmen go to it for they may make better cooks than some of us after all. Who knows? Nobody knows. Life is like that.

Christmas Candle Salad.

Lettuce leaves 2 bananas
4 slices pineapple (canned)
1 green pepper
4 Brazil nuts (shelled)
Mayonnaise dressing

On individual plates—make nests of lettuce leaves and lay a slice of pineapple in each nest. Peel the bananas, scrape them and cut in halves, crosswise, paring the cut end so that the banana will stand upright in the slice of pineapple. Insert a piece of Brazil nut in the top of each banana, and make a handle of a narrow strip of green pepper or celery. Just before serving the salads, light the Brazil nuts. (The oil in the nuts will burn for some minutes.)

EIGHTH GRADE

Patrice Robertson spelled down the class Friday.
So many being absent last week, much of the time was devoted to reviewing and helping those who are not up to the standard.

The class cleaned and polished their desks during the week.
All but four reported for school Monday morning.

KINDERGARTEN.

There were only six pupils in Miss Turner's kindergarten class out of eighteen the first of the week; the latter part of the week there were less. This is due to the epidemic.
The kindergarten pupils have been decorating their room for Christmas with Christmas bells and Christmas stockings. We know that all the little kiddies are looking forward for the arrival of Santa Claus Christmas Eve.

Howard Medlin, one of the members of our newspaper staff has been out of school for over a week. Howard has been sick with the flu. We are all glad to see him back and especially the News Writing Class.

High in QUALITY Low in PRICE

There's a big difference in tires, although they all look pretty much alike.

Some are made with skimpy, short staple cotton. Some have an overdose of "filler" in the rubber of the tread. Some are long on looks and short on quality.

But you won't need a microscope to be sure that the Goodyear Tire you get from us is a real buy. Goodyear mileages tell the story of "The World's Greatest Tire."

Goodyears are performing so satisfactorily for our customers that they invariably come back—not with a kick but with a boost, and for another Goodyear when they need tire equipment.

We have your size—in fresh, new stocks—at low prices.

Owners Endorse Four Speed Performance

Owners, after many months experience with the Graham-Paige four speed transmission, enthusiastically endorse its performance. Fourth, used most of the time, gives a new smoothness and swiftness—third, a quiet internal gear, provides rapid acceleration in traffic, and up steep hills. The gear shift is standard. You start in second—first, in reserve, is seldom used. A six or eight is at your disposal.
