

DREAM OF LOVE

Royal Theatre, O'Neill

Sunday and Monday
March 31 and April 1

Fred Nible's production with Joan Crawford, Nils Asther and Aileen Pringle. An actress whose love swayed thrones here has the white light of truth thrown on her life!

Beautiful Joan Crawford will sweep you off your feet as the maid who rises from obscurity to conquer the heart of the world! Revolution, intrigue, glamorous romance! It must be seen!

Past Grand Master and Grand Treasurer of the I. O. O. F., J. T. Fletcher, of Orchard, and Grand Secretary of the order, Ed S. Davis, of North Platte, were present and gave short talks. The ladies served luncheon.

A CORRECTION.

The Frontier of last week carried a want adv. for the Atkinson Hatchery where in the price of eggs were quoted at "\$3.00" per 100; the price should read "\$4.00" per 100.

DISTRICT COURT IN SESSION PAST WEEK

At the time of going to press last week the case of the State of Nebraska vs. Robert J. McAllister, of Atkinson, charged with violation of the Volstead law, was being argued. The jury was out only a short time when they reached a verdict of acquittal.

The next case to be tried was The State of Nebraska vs. James Herra, of Atkinson, charged with bastardy. The jury found him guilty; the court has not yet pronounced judgment.

The case of Gilbert Eacker vs. Peter W. Duffy, as sheriff, et al, was taken from the jury by the court who found for the defendant.

The case of Charles Baker vs. Levi Hull attracted considerable attention Tuesday. This was a suit to recover damages as a result of an auto collision that occurred June 23rd, last; Hull came in with a counter claim for damages to his car as a result of the collision. The jury found that each party to the suit should stand their own damages.

The last case to be tried to the jury Wednesday was The State of Nebraska vs. Charles Peterson, charged with the purchase of a truck license in another county. The jury found him guilty.

The jury was dismissed for the term. There are yet a number of equity cases to be heard by the court.

PROSPECT HILL CEMETERY ASSOCIATION ARRANGING TO BEAUTIFY CEMETERY

The Prospect Hill Cemetery Association have arranged with R. E. Mick, a representative of the C. G. Patton Landscape Gardens of Charles City, Iowa, for several hundred flowering shrubs and ornamental trees to be placed by him in the cemetery at an expense of \$165.00. Mr. Mick is an expert in the art of landscaping; he will personally supervise the planting of the trees and shrubs.

The ladies of the association will raise the necessary money by a series of teas, food sales and other means.

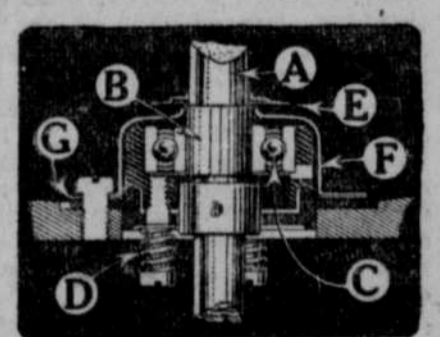

Two large food sales will be held Sunday. The first one will be held Saturday, April 13th. Watch for further announcement next week.

WOMAN'S CLUB.

Mrs. James Timlin, Mrs. O. Rumell, Mrs. J. P. Gallagher, Mrs. S. L. Berry, Mrs. J. H. McPhalin and Mrs. L. A. Carter will be hostess for a social afternoon and Tea at the club room next Wednesday, April 3rd.

Why the Gold Medal Is So Light-Running-

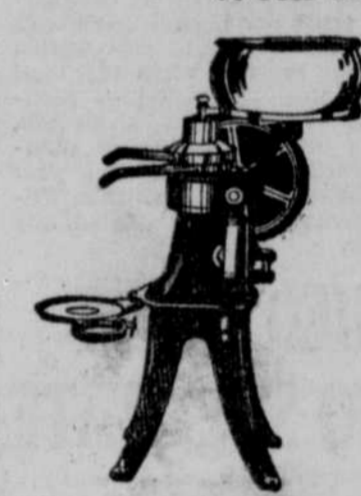

You will say the Gold Medal is the lightest-running cream separator on the market once you've operated it. And you will find one of the biggest reasons for its lighter running in its self-centering, self-adjusting, completely-enclosed ball bearing upper-neck bearing. (See cross-section view at right).

SELF-CENTERING, SELF-ADJUSTING, DIRT-PROOF BALL BEARING
A—Spindle. B—Wear resisting brass bushing. C—Smooth-running ball bearing. D—Bearing collar spring—makes bearing self-adjustable and bowl self-centering. E—F—Bearing is effectively enclosed. E is neck-bearing shield; F is bearing cover. G—Insulating gasket breaks magnetic action created by high-speed action of ball bearing.

The self-centering, self adjusting feature of this ball bearing is an exclusive Gold Medal feature. It permits the bowl and spindle to find automatically the exact center and spin with perfect balance and least possible friction.

Gold Medal Separator With the Curved Disk Bowl

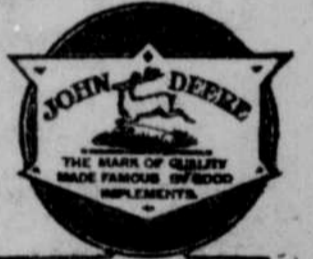

These other important factors in the construction of the Gold Medal add to its easy-running qualities:

1. All gears and bearings are kept bathed in oil.
2. Because of its curved disks, the bowl is smaller and more compact than a straight-disk bowl of equal capacity. Revolves without vibration.
3. The spindle rests on a hardened steel ball, which revolves in an oil bath between two hardened steel points.
4. The upper and lower spindle bearings are anti-friction, carefully machined to fit snugly.
5. The gears are simple and are arranged to give maximum skimming force from minimum power.

Before you buy a new cream separator, be sure to see the Gold Medal at our store. Remember the Gold Medal is the separator with the CURVED disk that means CLOSER SKIMMING.

How much power is in your garden?

NATURE can do only so much with any seed. The seed itself must contain the promise and the power. You would feel convinced of the power of Ferry's purebred Seeds if you could see the great Ferry stock seed farm and trial gardens.

Here are acres and acres of specimen plants. Every plant that is mature is big, vigorous, beautiful,

and bountiful. Only the best plants are allowed to mature—all else are weeded out. Any plant that doesn't produce true to type gets weeded out. And only seeds from the plants that measure up to the Ferry standards in size, color, flavor, productivity—are the Ferry's Seeds you can buy.

In these seeds is the power to produce flowers of superb beauty, and vegetables of superior flavor and size.

Surely all the work you put into your garden deserves just these seeds. Ferry's Seeds have to be all you expect when you buy them. In addition, they are fresh. No packet of Ferry's Seeds is ever carried over by the dealer for sale the second season. Ferry's Seeds may be had at "the store around the corner." Write at once for the Ferry's Seed Annual—with its good garden advice. Address D. M. Ferry & Co., Dept. H, Detroit, Mich.

Your garden will have its best possible start with Ferry's purebred Seeds.
