Which is YOU?

at the End of the Day

Two women start the day alike; both alert, cheery, humming happy tunes. At dusk one is still happy and singing... fresh as a daisy. The other is tired, worn out, listless. Which is you?

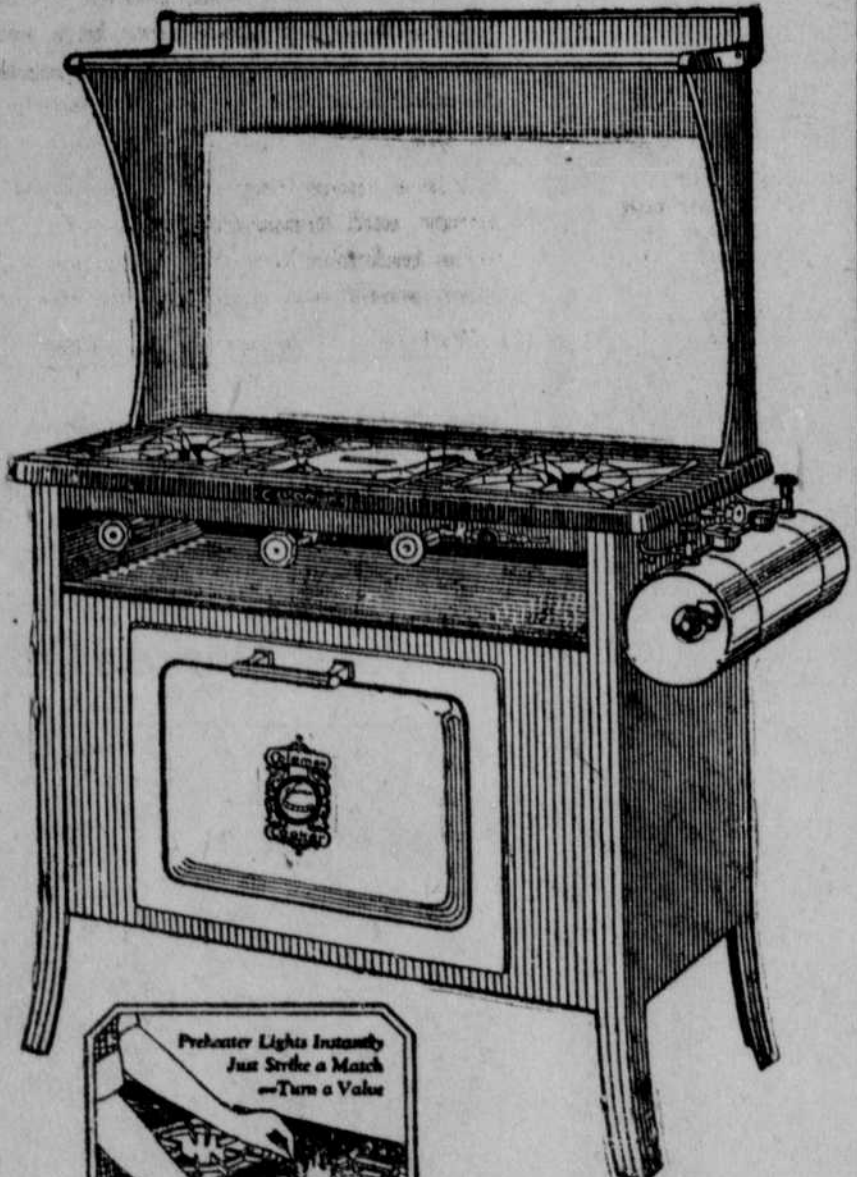

Banish Drudgery from Your Kitchen

If you are the housewife who is worn out at the end of the day, get a Coleman cooker. It banishes drudgery from your kitchen. Makes cooking an easy, pleasant task.

With this remarkable stove you have city gas service for cooking. Simply strike a match, turn a valve... and in less than a minute one or all burners are ready with a smokeless, clear-blue, pressure-driven blaze; actually hotter than natural gas. None of the delay and back-breaking work that is necessary when you use an old-fashioned coal or wood burning, or oil stove.

You have instant heat regulation with a Coleman Cooker... from the hottest wash boiler fire down to the lowest simmer. Intense heat for quick cooking... or a slow fire just to keep things warm.

Come in and see these remarkable Coleman Cookers demonstrated. Let us show you their many labor-saving features.

You'll like the Coleman Cooker

—Because it makes its own gas from any good grade of regular clear-white gasoline.

—Because it cooks with a hot blue-gas flame. The most desirable kind of heat. Hotter than natural gas!

—Because it produces clean heat. No soot to blacken pots, pans, walls, ceiling or curtains.

—Because it means less work. Use all burners at once. No waiting. No shifting pots and pans, no coal, wood or ashes to carry.

—Because it is economical. Cooks a meal for the average family on two cents' worth of fuel. Saves time—labor. No installation expense. No leveling, no piping, no connections.

—Because it operates on the same safety-pressure principle as the famous Coleman Lamp. Tank can't be filled when lighted.

—Because it is beautiful. Made in a variety of attractive new styles and finishes... snow-white porcelain, soft French grayenamels, jet black Japans.

—Because you can select from many models. Ranges, three and four-burner stoves, low oven models, bungalow cookers... a stove for every purse and purpose... and all priced right!
