

O. H. S. CARNIVAL.

The O'Neill High School presented a carnival Wednesday and Thursday, April 24 and 25. Due to the rain all day Wednesday, we were obliged to give it again Thursday, when a very good crowd turned out to see what the school had to offer. Among the many attractions was the "Scientific Wonders of the Age," given by the Physics Class, which was reported to be worth all it cost and a program given in the auditorium, consisting of a Funny Paper, Minstrel Show and a Dance and Song given by Phoebe Abdouch. The Beauty Shop and Telegraph Booth were both very popular.

MUSIC.

By Violet Robinson.
We High School Students had the pleasure of listening to one of Walter Damosch's programs, last Friday forenoon, at 10:30.
Walter Damosch has been the leader of the World's famous New York Symphony since 1903. Although Walter Damosch was born in Prussia he is called an American Musician.
This program that he gave Friday was for high school students. It was the first and second movements of Beethoven's Fifth Symphony.
We thank Mr. Jones for the use of his radio. The radio was used during the carnival and was left here so that we might hear this program.

COMMERCIAL.

Beryl Winchell, Nellie Toy, and Loretta Saunto, accompanied by Miss Catherine Lawlor, journeyed to Lexington to attend the state Commercial Contest held there Saturday, April 27.

The trip proved to be a successful one, as Beryl won third place in book-keeping, exceeding her record made in the district contest at Norfolk.

Many exciting incidents occurred, such as getting lost at night on the wrong road, getting stung by bees, and all but running out of gasoline at the crucial moment.

The trip was an interesting study in contrast, as the southern part of the state is greener and much more fertile than the sandhill country. The difference is noticeable about a hundred miles from O'Neill, and continues to be noticeable about seventy-five miles west. The weather is milder, the hills more frequent, and the towns more civilized beyond the sand dunes.

AMERICAN HISTORY.

By Miss Lawlor.
"The tide of empire moves westward!" Historians claim that history, moving in a cycle, gradually moves westward. In the beginning civilization originated in the Far East among the Babylonians and Assyrians, gradually moving westward to Greece and Rome, and in the middle ages, choosing central Europe as the seat of civilization. To-day the greatest power in the world is the United States of America, and the question of westward expansion is one that is puzzling modern historians.

Will Japan be the next world power? Civilization is destined to move across the Pacific and the growing menace of the yellow peril points to Japan as the leading world power. If this be true, then Caucasian supremacy is in danger. The white man will no longer rule the world as he has done for centuries but his place will be taken by his yellow brother. Our only consolation lies in our control of the purse-strings of the world. As long as we control the capital of the world, we need fear no foreign encroachments.

But the great god Mammon is fickle and may not be kind forever?
N. B.—If you have any ideas concerning this, let us hear from you.

WORLD HISTORY.

Friday, both divisions will meet in the auditorium to study and sing the national hymns of the countries of the world. Many of these hymns have settings and historic incidents in keeping with our recent study of "The Age of Revolutions."

We have our room decorated with the American, British, French, Belgian, Italian and Cuban flags. These flags are friends and we hope will sometime symbolize the World State and World Peace.

NOTICE—ENGLISH EXAMINATIONS

On Friday, May 10, Saturday, May 11, and Monday, May 13th, English examinations will be held at the O'Neill Public School for Seniors or any other persons expecting to enter the university of Nebraska this fall.

These "English" examinations are required and must be taken at the University in the fall if not now. The purpose is to classify those with passing grades into groups A, B, and C. The lowest group will be required to take a special course in English without credit, while the other two groups will be classified according to ability shown.

Algebra will also be given here for those expecting to enter the engineering college.

BRIGHT SAYINGS OF THE AGE.

Anita Liddy.

"Toughie" Auten says turtles are nice little playmates. He knows!

Clarence Ryan says a flapper is a girl who likes men's clothes best of all when there is a man in them.

Albert Rummel says if you sign a lot of notes you'll have to face the music.

Bennett Gillespie says one trouble with the radio is to tell whether it's static or contralto.

The only thing that spoiled Virgil's good time Saturday was that he didn't have his "Ford."

Mr. Brokenicky says he never expected to like marceles—but from the number of them he had at the carnival, he's learning and learning fast!

HIGH SCHOOL NEWS.

INFLUENCE.

One's influence upon those with whom he comes in daily contact, and especially upon the young people in his community, is a wonderful opportunity. One may well hold in high regard the fact that as a young life unfolds he has been instrumental in assisting with the process of development, the building of character. On the other hand this same influence is a responsibility which should cause one to stop and consider carefully the direction in which it may lead, for the young, plastic life may be given a downward trend as readily, if not more so, than the uplifting impetus. We may try to dodge our responsibility in this regard by saying that we do not set ourselves up as an example for anyone to follow; this, however, does not settle the question. Whether I wish it or not, whether I am willing to shoulder the responsibility or not, nevertheless some person may probably be looking at me as an example to be followed, as an ideal to be at-

tained. Let us then take heed and so guard our actions and speech, that our influence may not be a "stumbling block" in the path of some one, but rather be a helping hand to guide that one to a higher and a better life.

SENIOR DAY.

The remaining eleven members of the Senior Class, had their Senior Day, Saturday, April 28, 1929. Mr. Brokenicky, Mr. Jones, Mr. Miller, and Bennett Gillespie offered their cars for transportation, which was kindly appreciated by every member of the class. The party left O'Neill in the morning and drove to Long Pine, where they spent a hilarious day in the Long Pine Park, also enjoying the Picnic lunch they took with them. The teachers think playing base-ball is a wonderful sport, even if they do get hit with the ball every once in a while. Later in the evening the party journeyed on to Ainsworth, where they went to the movies. It was a "Senior" Day worthy of the name and full of fun for all.
