

You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

# CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain the choicest tobaccos grown . . . expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

## HIGH SCHOOL NEWS.

(Continued from page 7.)  
any time here-to-fore made.

To our highly Respected Faculty (who have imparted to us all the wisdom of the ages) we bequeath a sweet succession of peaceful nights and dreamless sleeps. No longer need they spend the dreary hours of darkness wondering whether their dear wards are pouring over their lessons or not.

It is said that children are easy to manage in the first grade but the difficulty increases as the years go by. In recognition of their watchful care over us, we bequeath to our teachers and superintendent the limitless knowledge and astounding information that we have furnished them at various times in our examination papers.

We realize that many things we have imparted were entirely new to them and all the rest of mankind. We wish that this information shall be spread far and wide so that the greatest good can come to the greatest number.

To our superintendent we extend heartfelt gratitude for his interest in us as a class and in us as individuals.

Margaret Grutsch will her winning smile to sober Clarence Saunto.

Mae Peter will her giggles to Elwin Grutsch.

Gladys Williams will her excessive height (and weight) to Ned Allendorfer.

Violet Strube will her latest boy friend to Cleta Murray.

Besides these, we come now to something of a more material nature. We, as a class, urge upon you, though we do not leave you, qualities and traits of character that make for true living, happiness and good sportsmanship. They are Loyalty, Generosity, Courtesy, Kindness, Love, Faith and Idealism.

If you accept these qualities and incorporate them in your lives, make the very most of them, they cannot fail but make of you good faithful loyal citizens of whom our schools, city and state will be proud.

In witness thereof, we have set our hands and seal at our residence, the Public School Building in the City of O'Neill, this 22nd day of May, in the year nine thousand nine hundred twenty-nine.

The Senior Class.

Signed, sealed, published and declared by the above named Senior Class as and for its last will and testament, in the presence of us, who have hereunto subscribed our names at its request, as witnesses thereto, in the presence of the said testament, and of each other.

The Senior Class.

## CLASS OF 1929.

Now, that we're finished our lessons, And will receive our diplomas so neat, We may think perhaps of the morrow; And how its demands we shall meet.

We have thought of our four years of working

Of sorrow, of joy, and delight; Of problems, outlines, and readings, And parties, and hikes and the like.

And yet as the path parts before us, Pursuing life's trail that's unknown; We shall miss all the finest attention Our teachers and friends have bestowed.

So, here's to you O'Neill High School; To you, we are linked by a chain.

Of finest thought, and devotion, May we merit all praise that we gain.

—Ambrose V. Rohde '29.

WHY spend the better part of a day washing when the Maytag will do it in an hour or two? Farm homes with or without electricity can enjoy the Maytag cast-aluminum tub and Gyrafoam action; the convenient adjustable legs and the handy hinged lid; enjoy the Roller Water Remover, with a flexible top roll and a hard bottom roll—the latest, safest and most thorough method of wringing the clothes. It spares the buttons, automatically adjusts the tension and reverses the drain plate.

## The Gasoline Multi-Motor

This is the only gasoline engine made for a washer by a washer company. It represents fifteen years development—high-grade in every respect and so simple and compact that it is interchangeable with the electric motor by removing only four bolts. A thrust of the pedal starts it.

## Farm Washings Free

Test and compare the Maytag in your own home without cost or obligation. Write or phone for a Maytag. If it doesn't sell itself, don't keep it. Deferred payments you'll never miss.
