### LOCAL FIRM AWARDED VALUABLE FRANCHISE

Local citizens who have heard of the amazing results which have been accomplished by Sargon will be interested in the important announcement that this new and scientific formula can now be obtained in O'Neill. Manufacturers of this revolutionary formula have followed out the policy of selecting outstanding firms as

exclusive agents in every city where the new medicine has been introduced. Leading druggists everywhere have acclaimed it a triumph in the field of modern medicine and have been eager to be among the first to supply it to their trade. It has been called the greatest health-giving remedy of the age. Never before in the history of the world has the progress of Medical Science been so rapid. One important discovery after another has been

made which will have a far-reaching effect upon the health and well-being of mankind. Some of these discoveries are startling in the extreme and absolutely disprove many of the beliefs, practices and theories we have known for a life-time.

As scientific investigators learn more and more about the human anatomy, the practice of medicine changes—the old is discarded for the new.

As a result of this world-wide medical research, Science has discovered the good health is largely governed and maintained by three vital organs and fluids of the body. These are the liver, the blood and the endocrine glands.

What is more important, we have learned that these organs and fluids can be stimulated and invigorated by certain basic elements.

Having knowledge of these important discoveries, one of America's leading bio-chemists succeeded, after two and one-half years of laboratory research, in combining these basic elements in one formula—which may well be considered one of the greatest health-giving remedies of the age.

It is called Sargon. This formula and the formula for Sargon Soft Mass Pills, which are an essential and integral part of the treatment, are the property of the Sargon Laboratories and can be obtained by no other firm or individual in the world.

This new scientific treatment, which represents much of our latest knowledge on modern therapy, has been acclaimed by druggists throughout America as a triumph in the field of medicine.

With the needs of their customers uppermost in their minds, leading druggists everywhere have been eager to be among the first to supply it to their trade.

Although introduced in the midwest only a few months ago, Sargon has already become a household word. In Kansas City alone, over 193,000 bottles of Sargon and Sargon Soft Mass Pills have been sold and distributed by local firms. Nothing like it has ever been seen before.

As a matter of fact, the marvelous success achieved by this remarkable medicine actually staggers the imagination. The demand for Sargon has been positively phenomenal and is probably unprecedented in the history of the drug trade.

In the state of California alone, the astonishing total of eight entire carloads was required to supply the tremendous demand during the first sixty days this remarkable medicine was on sale. Six solid carloads were ordered by Texas firms the first ninety days after its introduction in that state. The success of Sargon in Minnesota has been so overwhelming that the Twin Cities, Minneapolis and St. Paul, are selling it at a rate of \$200,000 a year through retail channels alone, to say nothing of the immense wholesale distribution. Over 250,000 bottles have been sold and distributed by Kansas City firms—Memphis wholesale and retail dealers have required more than 150,000 bottles—Atlanta retail firms are selling it at the rate of \$60,000 yearly. These are actual figures which can easily be verified and the sales in other sections have been correspondingly large.

The exclusive agency for Sargon and Sargon Soft Mass Pills for this city and section has been awarded to Chas. E. Stout. In anticipation of the enormous demand, this well-known firm has just received a large shipment of these celebrated medicines.—Advertisement.

### O'NEILL LONES THEIR FIRST GAME OF SEASON TO PLAINVIEW

Last Sunday O'Neill played their first ball game of the season and lost to Plainview with a score of 2 to 0.

Plainview had played two or three games so far this season and were in better shape, and they also had Roy Garrett on the mound for them. We understand that Garrett had tried out for the St. Louis Browns this season

Entered at the postoffice at O'Neill, Nebraska, as second-class matter.

but had been unable to make the team and Plainview has hired him to pitch for them. Anyway he was very good, only allowing one hit and that was to Tom Troshynski, our 1st baseman, who drove one out for a three bagger in the seventh.

The day was a bad one, with the wind blowing about forty miles an hour and made it a bad day to play ball.

O'Neill's lineup was considerably changed from last year, only two regulars in the infield and two in the outfield. Tom Troshynski is back again at first and Joe Cuddy at short. John Harrington played in center and Joe Martin in left field. The new members are Francis Clark on the mound, Mike Troshynski behind the bat, Charles Graham at second and Reese Williams on third, and Virgil Johnson in right field. All of the men played excellent ball Sunday, but were unable to hit the ball. O'Neill had one man as far around as third, four men around as far as second and one man left on first, but were unable to score.

### CELIA ITEMS.

Sunday was another gala ay for the hm'well, was going to say "Celia ranch" but some very fine ladies took exception to an item last week when all the exceptional good looks present at the picnic Friday of a week ago were referred to as the "Celia" cooks, thinking they were slighted but of course no slight was intended; this correspondent wouldn't slight even the littlest chick let alone a full

### Trapped By the Pearl Thieves!

## White Shadows in the South Seas

Beneath blue Southern skies of the South Seas, the pearl ring operates. It knows no law! It tears loved ones from each other! It sends men to their doom on the ocean bottom! At last Frederick O'Brien's famed book, revealing the inside story of the South Sea Islands, has come to the screen. Two years in production! Actually photographed in the wild interiors of the South Seas. It's different! The most exciting film of years.

grown ones. We think it was explained once that the Celia community consisted of townships 31 and 32, and what is not inside is outside of range 14, but out of compassion as well as deference and to calm troubled waters this correspondent will henceforth refer to these fine ladies coming across the range line as the "eastside cooks". But going back to the subject, a large and fine crowd of people gathered in on Johnsons' Sunday for a picnic dinner and a royal good time; it seems it was intended to be a surprise gathering on old man Johnson only he happened to find out about it about fifteen minutes after the conspiracy was hatched. It was a hungry crowd but the east side as well as the Celia providers had furnished abundantly, so the cooks brought in carloads, it therefore caused no extra hardship on the Johnsons, even the dog looked swelled a couple of days after. The gathering in of the friends and neighbors was quite opportune as Johnsons are entertaining some of their poor relation these days; a brother, S. J. Johnson with wife and daughter drove in from Wausa, Friday, to spend a few days here. Mr. Johnson is a retired farmer; he rented his farm at Wausa last year and drove to California and spent the winter, returning a few days ago. S. J. is a larger man than J. V. but in spite of heft and circumference he says the Pacific was too great for him and impossible to control. These visitors enjoyed the picnic immensely.

It has been quite dry, hot and windy for quite a spell, and most everything movable had to change location but Monday night and Tuesday the spell was broken by several welcome showers.

A cow was hauled out by the Community truck Saturday for W. O. James who purchased her from parties in town. W. O. bought another cow from J. V., Monday.

The cutworms are doing some real cutting in a lot of corn fields, destroying most of the corn the field contains. Orville Jensen is replanting most all his corn.
