THIS BANK CARRIES NO INDEBTEDNESS OF OFFICERS OR STOCKHOLDERS

The laws of the nation and most of the states as well, recognize that surplus is a protection to depositors, but the usual maximum imposed legally is 20 per cent of capital. Roll of Honor Banks have, through their own initiative increased this maximum four times beyond the law's requirements, this for the purpose of affording additional protection to depositors. It is a significant fact that for more than 26 years there has not been a single failure of a National Bank in Nebraska where the surplus account exceeded the capital stock. The surplus and undivided profits account of the O'Neill National is more than seven and one-half times the legal requirements. Our cash on hand is \$191,655.00 more than the legal requirement. This large amount of cash on hand coupled with United States bonds of over \$100,000, other bonds and securities of over \$80,000.00 and commercial paper on hand, all of which can be converted into cash any day, make what may be properly termed as a total cash reserve of over \$500,000.00, or more than 95 per cent of our total deposits. Again it is our proud privilege to say that we could, if necessary, pay off every depositor we have within a week's time without having to call a single local loan.

We are always in the market for desirable well secured loans. We invite your account, large or small.

O'NEILL WILL ENTERTAIN WALTONIANS NEXT YEAR

Fifty O'Neill Boosters in Special Car Visit Convention Friday.

Miss Mildred Malone Elected Sec'y.

The 1930 session of the state organization of the Izaak Walton League will meet in O'Neill. This was the unanimous decision of the state convention of Waltonians during the closing hours of the convention at South Sioux City last Saturday.

Fifty interested Waltonians headed by the O'Neill Concert band chartered a special car, donned green hats and ribbons and went to South Sioux City last Friday for the purpose of asking for the 1930 state convention. Omaha and Sidney were after the convention but when the O'Neill delegation appeared on the scene the other towns practically conceded the convention to O'Neill.

The band played several selections at each town on the way to South Sioux City. The Northwestern band of Chicago, and the Thurston, Nebraska band were at the convention on different dates but neither of the other bands made a better showing than did the O'Neill band according to delegates who attended each day's session. The O'Neill band is one of the best little bands in this part of the state.

Miss Mildred Malone was elected secretary of the state convention. Miss Mildred has been doing the secretary work for the last two years and is very familiar with the routine. She was given a very substantial increase in salary. She will have offices in Nebraska City during her term of office.

Dr. F. T. Cressap, Nebraska City, was elected president of the Nebraska band were at the convention

Brady of Atkinson, who had been leader of the Waltonians since 1925. During Mr. Brady's regime, the Nebraska lkes accomplished much, not only in preservation and propagation of wild game and game fish, but in legislation. It was through his efforts and those of other Walton league leaders that the fish and game commission was established.

Mr. Brady had previously announced that he would not be a candidate for re-election.

Mr. Brady was elected a director for the coming year. The six vice-presidents are: F. A. Gordon, South Sioux City; Arden Johnson, Falls City; H. A. McCaffrey, Omaha; S. C. Polak, David City; W. J. Nisshen, Oxford, and I. A. Goff, Hay Springs.

If O'Neill entertains the Waltonians in her usual manner it will take the united effort of everyone to make the session the success that it should be; there will be from five to eight hundred delegates here. Let's all help push this convention over in a big way.

N. W. BELL TELEPHONE CO. REBUILDING TOLL LINE

A new toll line is being built by the Bell Telephone Company between O'Neill and Spencer. The line is being routed to keep away from the electric light lines as much as possible to eliminate all interference. The poles are creosoted yellow pine. Eight heavy copper wires will be used on the line. O'Neill will be connected with a direct circuit to Spencer and all calls to the Rosebud will be routed that way which will give better and quicker service. A direct circuit will be placed at the Nebraska Power plant, and a toll station, in order to give the people of Riverside vicinity better service. There are about 25 workers employed in the construction of the line.
