PROGRESS BY COMPARISON

There is no way to judge whether
progress is being made except by
comparison. Comparing the result of
one's genius and industry with that
of others enables one to see whether
he is standing still or going forward.
For this purpose the Nebraska State
Fair exists and it is doing a great
work in developing the resources and
spirit of Nebraska by affording a
place where they can be displayed.
Many a farmer, attending the Fair,
has gone home with the determina-
tion to raise as good an animal or
produce as fine an ear of corn as he
saw at the Fair grown by one of his
class with no great capability or op-
portunity. It is by the exchange of
ideas and the promotion of competi-
tion that the Nebraska State Fair is
helping to build a greater state.

ENGINEER DECLARES HE HAD GIVEN UP ALL HOPE

This wonderful medicine has
brought me out of what I thought
was a hopeless siege of suffering and
I am now enjoying the best health
I've had in nine
years.

"My health
began to fail in
1920 and by
Christmas, 1928,
I had gone down
in weight from
207 to 142
pounds. During
all this time I
suffered terribly
from stomach
trouble in its
worst form. Con-
stipation and a
sluggish liver
also made life
miserable for me. Finally, after an
attack of influenza, I was in such a
weak, run-down condition that I
could hardly walk. I just about gave
up hope.

"At last I started taking Sargon,
and in almost no time the pains in
my stomach were overcome and I
haven't had a trace of indigestion
since. The tired, weak feeling left
me, my strength returned and in
less than a month I gained back nine
pounds. I'm still gaining, too. Sargon
Soft Mass Pills toned up my liver
and ended my constipation. In fact,
you just can't imagine how much
better I feel in every way."—J. H.
Clark, retired locomotive engineer of
4510 South 21st Street, Omaha.
Chas. E. Stout, Agent.

CITIZENS OF TOMORROW

The future of Nebraska does not
rest in its lands, its climate or its ma-
terial resources. It is not assured by
the present generation of thinkers
and workers, important as their con-
tributions are. It centers in the boys
and girls who must take the imple-
ments of progress as they fall from
aged and weary hands, and carry on.
Every fall at the Nebraska State
Fair citizens of this state catch a
glimpse of the greater development
and prosperity that is to be. It is
promised by those eager, trained, or-
ganized young people of the Nebras-
ka 4-H clubs. They are learning bet-
ter ways of raising crops, breeding
and feeding cattle, developing soil
resources and increasing farm in-
come. A few years from now they
will come into control of the farms
of the state and be its producing citi-
zens. Then their present schooling
and experimentation will be translat-
ed into actual practice. A new period
of Nebraska development will begin.

PERCY'S SONG A FEATURE OF "THE BLACK WATCH"

During the World War David Per-
cy, then a youth of sixteen who
sneaked into a uniform, was the first
American soldier to sing for the
British wounded.

Percy sang again for a group of
soldiers in a screen play, "The Black
Watch," all-talking Fox Movietone
production directed by John Ford and
starring Victor McLaglen, which
enters the Royal Theatre next Sun-
day for a run of two days.

The occasion was a farewell ban-
quet at the officers' mess of the fa-
mous "Black Watch," the nickname of
the 42nd Highlanders, the night be-
fore the detachment sailed for
France.

Inasmuch as this Fox production
will be heard as well as seen on the
screen, the voice of Percy faithfully
is recorded and is sure to prove a
triumph.

"The Black Watch" is based on the
Khyber Rifles," with McLaglen in
Khyber Rifles," with McLaglen in
the role of "Captain Donald Gordon
King." The picture is expected to be
a sensation.

NEBRASKA'S BIG SHOW READY

Preparations for holding Nebras-
ka's greatest fair are moving swift-
ly to consummation. That immense
building undertaking, the new grand-
stand, is now getting its finishing
touches. It will be ready on the open-
ing day with its novel exhibit spaces
underneath and seats for 17,500 peo-
ple above.

The attendance mark is set at 450,-
000, which is 43,000 more than last
year, the record topper. But there
will be no surprise at fair headquar-
ters if the gates admit a full half
million people. Every department of
the great show at this time reflects
an increased interest on the part of
its owners in all departments.
