

For Speed Power and Pick-up...

a six without a rival at its price

Without a single exception, the Pontiac Big Six is the fastest, most powerful six of its price available today. Its sturdy, 200 cubic inch, L-head engine develops 60 horsepower at moderate engine speed. Its speed and acceleration are the fastest to be found in any low-priced six, according to the "fifth wheel"—the most accurate speed measuring device known to automotive engineers. Unquestionably, today's Pontiac Big Six is the performance leader of its price field—and the style and value leader as well.

PONTIAC BIG SIX

If you are interested in a car costing anywhere near Pontiac's price, your own interests demand that you see and drive today's Pontiac Big Six. And when you come in, bring your present car for our appraisal. Its value will probably cover the down payment, leaving only a few dollars per month to pay. And, as you pay, you will be enjoying the finest car of its price the market affords.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values... Oakland-Pontiac delivered price includes only unsharpened charges for freight and delivery and the charge for any additional accessories or financing desired.
