IMMENSE CROWD AT HOLY NAME MEETING

A public demonstration covering four deaneries of the Omaha diocese, in honor of the Catholic Holy Name society, drew one of the largest crowds Sunday that had ever been seen in O'Neill.

All members of the society gathered at the Knights of Columbus hall, where the largest parade ever to march through the streets of the city was formed, headed by the O'Neill band. The members of the rally proceeded to the vacant ground, south of the St. Patrick's church, where a platform had been erected for the clergy and speakers of the day.

A beautiful altar had been erected on the platform and a splendid program was carried out.

The speakers were introduced by the Rev. Henry J. Buerger of Howells. There was a short address of welcome by the Rt. Rev. M. F. Cassidy, pastor at O'Neill, followed by the introduction of the Very Rev. J. McNamara and an address by him. A splendid talk was given by Mr. Donahue of Albion, Neb., and Judge Harrington held the large audience with his description of modern home life. Next was an address by the Rt. Rev. J. F. Rummel, D. D., bishop of Omaha, who congratulated Monsignor Cassidy on his wonderful work accomplished during his fifty-one years in the priesthood. The remarks by the diocesan director for the district were listened to with interest. The one thousand delegates present renewed the Holy Name pledge. The exercises were closed with Benediction of the Most Blessed Sacrament. All voices blended in the singing of "My Country," and the program closed with a hymn.

There were delegates from Albion, Amelia, Bloomfield, Butte, Central City, Silver Creek, Clarks, Cornlea, Elgin, Emmet, Ewing, Lynch, Osmond, Petersburg, Raeville, Spencer, Stuart, Verdigre and Atkinson.

Does Better Work—Lasts Longer

John Deere-Hoover Two-Horse Potato Digger

In this and other sections where potatoes are grown, the John Deere-Hoover is the popular digger. It's the digger that delivers clean potatoes—free from dirt, trash and vines in a condition that makes them easier to handle and gives them a higher market value.

The agitating elevator on the John Deere-Hoover removes the dirt from the potatoes and drops them on top of the ground, clean and easy to pick up.

You can quickly and easily adjust depth to get all the

potatoes without cutting them. The properly shaped shovel runs under the hills at uniform depth and raises the potatoes to the elevator.

Two horses handle this digger with ease in ordinary conditions. It is a light-weight machine, yet strong enough to meet any conditions found in this region.

The John Deere-Hoover will give you many years of good service. The main frame is of steel. Renewable chilled iron bearings carry the weight of the elevator.

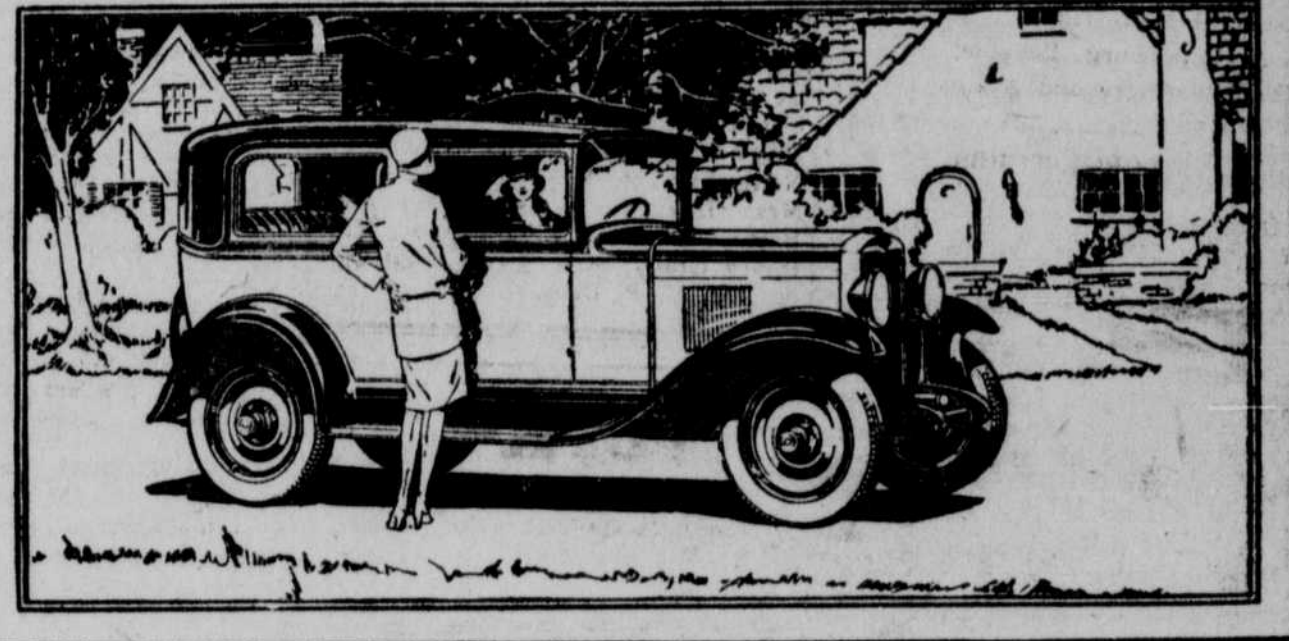

Be sure to come in and see the John Deere-Hoover before you buy.
