

## Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant for them to take.

Any drug store has the genuine, prescription product.

### COULD NOT SLEEP NIGHTS

Helped By Lydia E. Pinkham's Vegetable Compound

Fairhaven, Mass.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life and I think it is a wonderful tonic. When I feel nervous and run-down my husband gets me a bottle right away. It is a great help to me and I think that if other people would only take it when they feel all run-down and take it as the directions say, they would find it a great benefit. My worst symptoms were nervousness and tired feelings. I could not sleep nights and I did not care about my work. I was so nervous I would cry if anyone looked at me."—Mrs. Ada Bess, 195 Washington Street, Fairhaven, Mass.

### His English Poor, but His Meaning Evident

Writing to the London Times, an Englishman's custom, takes root in British territory, as evidenced by a letter, quoted by the Living Age from the Singapore Straits Budget. It is couched in a Chinese English and follows, in part:

"I wish my companion went Wilkie road hills seen a couple of Contongese Lover to whisper and kiss in a shade of a tree. Looking this person is very sweetheart. First time I seen, today very nice. Like last night saw the cinema."

He goes on to describe what he saw in the cinema, then to protest at an unfeeling policeman's interruption of the lovers in the park.

"I think very poorly against it. Any time ever been, can see kiss at park, dance hall and cinema. I thought this thing is commonly matter, not third person matter to do. Contribution results. Excuse me, sir."

## The Right Way to Redye Fine Silks

Textile makers always use special dyes for silk or wool. They know that is the best way. The makers of Diamond Dyes are the first to enable home dyers to follow this plan.

Next time you want to dye some of your more valuable articles of silk or wool, try the special Diamond Dyes in the Blue Package. They will give these materials clearer, more brilliant colors than any "all-purpose" dye. And they are just as easy to use as ordinary dyes. Like the white package Diamond Dyes, these dyes contain an abundance of the highest quality anilines. The blue package dyes silk or wool only; the white package dyes, or tints, any material. Either package; 15c, drugstores.

## Out Our Way

## W. C. T. U. Leader

Mrs. Ella A. Boole, of Brooklyn, N. Y., was re-elected president of the national Women's Christian Temperance Union, at the 55th annual convention in Indianapolis.

**Jew Is Fighting Man.**  
From Louisville Herald Post.  
It's a singular thing that people in general should hold so strongly to the idea that the Jew is one who practices the virtue, if it is a virtue of non-resistance.

There is nothing in his story to justify such a view and, indeed, everything to prove that he was no more meek than that turbulent, rebellious figure, Moses. That in the middle ages, and later, in Russia, he was massacred cruelly and completely and did not hit back, was due to the fact that having no weapons, he could be crushed by armed mobs and licensed soldiery.

Long before Napoleon placed Jews among his marshals the fighting quality of the race was known and praised.

From the days of the Maccabees on there was no insurgent so much dreaded by the Roman as the people of that narrow littoral that lies between Syrian and the Egyptian outposts.

The story of the great war is full of the names of Jews in all the armies, and very certainly the British are not soon going to forget the gallant soldier from the Anzac forces who repeatedly swam ashore at Gallipoli and lighted flares on the beach to guide the incoming boat.

**No Habeas Corpus There**  
William Henry Chamberlain in Atlantic Monthly  
The writ of habeas corpus does not run in Russia. Anyone suspected of a political or economic offense may be arrested, held in prison for an indefinite period, and finally exiled, sentenced to a term of imprisonment, or even executed simply by the fiat of the all-powerful Gay-Pay-Oo, or political police.

The full formal title of the institution is United States Political Administration, usually shortened in Russia to Gay-Pay-Oo which is a combination of the first three letters of the Russian words for state political administration.

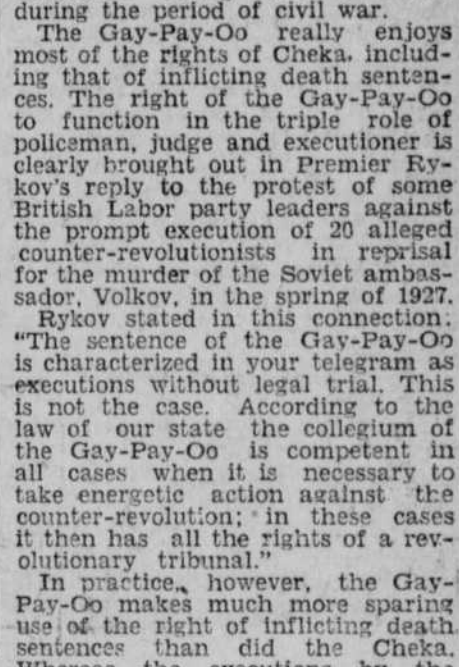

No one has ever been able to secure any official statistics regarding the number of persons who are in prison or are in exile for political offenses in the Soviet union; but the free use which the Gay-Pay-Oo makes of its sweeping powers of arrest makes it certain that this figure is one of the highest in the world.

The Gay-Pay-Oo is probably the most powerful and extensive secret police system in existence. It is

streams just as soon as that depth can be established and with the assurance which has been forthcoming, that this feature of the program will not interfere with use of a 6-foot channel the moment that it is prepared for navigation. It is a bright outlook for waterways and the Middle West.

From Omaha World-Herald.  
Congressman William E. Hull of Illinois is adding power to the movement for the development of inland waterways of the Middle West. Mr. Hull is vice chairman of the rivers and harbors committee in congress. He is convinced that "the sooner water transportation is developed the quicker will be solved the farm and business problems of this territory."

He began his Omaha address with the statement, "Herbert Hoover is the confident hope of the inland waterways of the nation. We, his advocates, must work with the president of the United States and secure from congress appropriations large enough to complete all projects in four years."

Such concise and earnest counsel to Omaha and Nebraska advocates of water transportation, such confidence in the near probability of barge lines on the Missouri river as far as Sioux City is one of the most heartening incidents in the long agitation for Missouri river development. We have been convinced for some time that a determined and united effort of Omaha, Nebraska and sister states for a navigable waterway on the Missouri would get somewhere within a reasonable time.

Vice Chairman Hull confirms that view and adds to our confidence that business generally as well as the farm producer will share largely in this economic transportation benefit. Joint rail and water rates, he points out, under the Denison law, now come from the railroads or by direction of the interstate commerce commission giving everybody in a large tributary territory the opportunity to use the waterway to advantage.

In Wake of Hull Trip. From Kansas City Star.  
This section needs no urging to accept the vision of a completed waterways system which was brought to Kansas City by Representative Hull of Illinois, enthusiastic leader in river development legislation. This section knows the benefits to be expected from cheaper transportation that will tend to give it an equality of opportunity with the rest of the country. It knows its resources and the possibilities of their development under the incentive of river shipping. It knows that its representatives in congress can be depended upon to work for its best interests in bringing the fortunate condition about. It has not always been so, which is the inspiring thing about the entire situation. For the Middle West now is united on waterways, or so nearly a unit that the small minority of dissenters can be wholly discounted.

What this section desires to see is the earliest possible utilization of all its navigable streams. It wants the upper Missouri developed as well as the lower river. It already for the 9-foot channels, which Representative Hull promises, in all the

## To Identify Genuine Aspirin

THE increasing use of Bayer Aspirin every year is proof that it has no ill effects. It is the accepted antidote for pain. It always helps; it never harms. Quick relief when you've a headache, or cold; or are suffering from neuralgia or neuritis. Rheumatic pains yield, too, if you'll only give these tablets a chance. But you want genuine Aspirin, so look for the Bayer Cross on every tablet. The box always bears the name Bayer and the word "genuine" printed in red. Proven directions inside.

## Here's one granddaughter who takes advice from elders

**Schoolgirl learns simple health measure**

WITH all the talk there is nowadays about the independence of the sub-deb generation, your reporter got a great kick out of hearing a grandmother describe how her granddaughter was following a good old tried and true method of improving her general health.

"My granddaughter, Margaret," says Mrs. Zell of 6231 Catherine Street, Philadelphia, "read about Nujol, was interested in it, so sent for a sample." It seems she has been taking a tablespoon of Nujol once a day since and expects to continue this treatment. Already she has found an improvement in her general health, her system functioning normally where other remedies had failed.

That's one of the best things about Nujol. It is just as harmless for young girls, or babies even, as it is for adults. For Nujol contains no medicines or drugs. It can't upset

## When Babies CRY

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

the thing to give. It is almost certain to clear up any minor ailment, and could by no possibility do the youngest child the slightest harm. So it's the first thing to think of when a child has a coated tongue; won't play, can't sleep, is fretful or out of sorts. Get the genuine; it always has Chas. H. Fletcher's signature on the package
