Three of the four men shown here are playing a prominent part in the making of history. The fourth has already made his mark and is now enjoying a much needed rest. Miron Cristea is one of the three men ruling doumania until King Michael becomes of age. Theodore Roosevelt is known in every section of this country. Count Manzoni is one of Europe's foremost diplomats and Winston Churchill was once the Secretary of the Treasury of Great Britain. From left to right, Miron Cristea, aged Patriarch of Roumania and member of the Regency Council, who accord-ing to cable reports from that country is seriously ill; Theodore Roosevelt, who has been appointed Governor General of Porto Rico; Count Manzoni, the Italian Ambassador to France, and Winston Churchill, the former Chancellor of the Exchequer of Great Britain. (Herbert Photos)

The food value of bread is beyond question.

growth.

the human body. White bread, made with milk and yeast, is rich in pro-teins of high quality which facilitate

the maintenance of nitrogen metabol-ism; it is rich in carbohydrates which supply heat and energy; spread with butter it contributes fat and, through the milk, provides vitamins and also calcium valuable for bone and teeth
