WILLIAM J. FROELICH IS COMMENDED BY JUDGE

The Tampa, (Florida) Daily Times has the following to say about the way William J. Froelich of this city is handling the counterfeiting case against ex-Governor Catts of Florida:

Froelich, young assistant to the attorney general, who is conducting the prosecution, parades his witnesses, stages his climaxes, with the skill of a master showman. He put the Burwell woman on the stand to open the trial, interesting his jurors from the start, riveting their attention, firing their imagination. From this high point, reached yesterday morning, he had enough momentum to carry thru the day, as he brought in his prosaic hotel clerks, truck drivers, printing press salesmen. Then another woman to revive the jury's flagging interest; a little mail clerk from a Jacksonville hotel, Edith Darling, whose very name, murmured by the prosecutor, sent a good-humored chuckle around the crowded room.

THE M. M. CLUB GIVES HALLOWE'EN PARTY

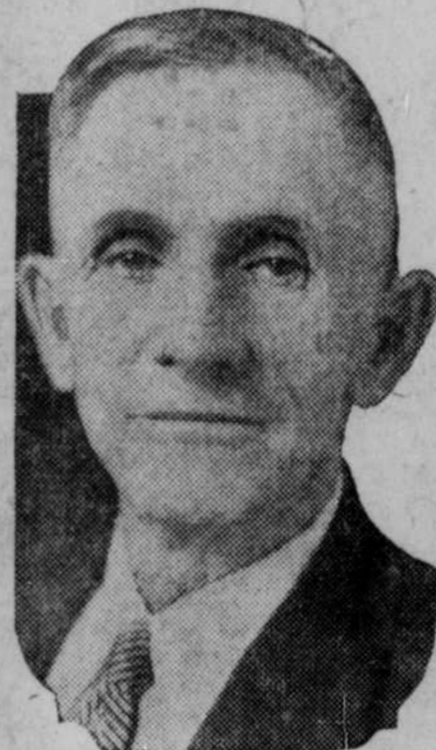

The M. M. Club and husbands held their annual Hallowe'en party at the home of Mr. and Mrs. C. P. Haneock Monday evening. It was a big time from start to finish. Everyone was dressed in "hard time" attire and some of the costumes were marvels. As we drove up we were met in the yard by a ghost, who conducted us to the outer basement door. We descended to find ourselves in darkness amid the clanking of chains, hollow moans and shrieks, and after much groping about, finally following a narrow stairway and winding passage, we arrived. The house was appropriately decorated for the occasion. The evening was spent playing suitable games clever prizes being given to the winners. At midnight a delicious lunch was served.

Before leaving for home and to give us something to remember until next year, we were arranged in a circle with our hands behind us, the room darkened, and the following objects passed quickly from one to another around the circle: a hot baked potato, a piece of ice, section of a dill pickle, a piece of Russian thistle and a cold, fresh raw oyster, and if you try it and don't get a thrill out of that oyster, then it can't be done. Altogether it was some party.

The Ladies Guild of the Presbyterian church will meet with Mrs. C. J. Malone on Thursday, November 7th. A light lunch will be served. Aunt Lucia is coming.

HAD TO TAKE LAXATIVE EVERY NIGHT, HE SAYS

"I was a farmer for sixty-four years and there were mighty few mornings during that time that I didn't see the sun rise. But when I retired five years ago to take things easy, my health began to fail.

JOHN M. DUNCAN

"I blame all my troubles on constipation, brought on by lack of my usual outdoor exercise. I had to take laxatives almost every night. Then my stomach got all out of fix and nearly everything I ate disagreed with me. I was bilious, felt no account and just had to force myself to keep going.

"Four bottles of Sargon put my stomach in fine shape and the Pills got rid of my constipation and biliousness entirely. I'm through taking laxatives now, but stay regulated just as good as when I was working twelve hours a day on the farm. I've got a big appetite, everything agrees with me, and I'm so much stronger and better in every way, I feel like a new man."—John M. Duncan, 2109 S. 46th St., Omaha.

Put This Money-Maker to Work on Your Farm!

Letz No. 230 Mixed Feed Maker

When you put a Letz Mixed Feed Maker on your farm your feeding costs go down and your profits go up—even though you feed but a few head of stock.

The Letz No. 230, with the double automatic, all-steel feed table, will cut, grind, and thoroughly mix from 2,000 to 4,500 pounds of roughage and grain per hour! It will pay for itself in a single season through the increased profits from your live stock made by properly preparing feeds.

Remember, there is no waste to ground feed. It has

20 per cent more feeding value than whole grain and roughage—your stock eat all of the feed, and it is more easily digested. There is no loss of time or labor in hauling when you grind your feed at home. Your supply is always at hand—when you need it.

The No. 230 will cut and grind roughage—stalks, stems, leaves and all—as well as ear corn and small grains, and it won't clog if the grain is green or wet. Plates are self-sharpening and self-aligning.

Come in and get complete facts on this money making feed-maker next time you're in town.
