

CHESTERFIELD said: "Men are judged not by their intentions, but by the result of their actions." It is not what you intend to bank, but what you DO bank that counts.

The O'Neill National Bank

Capital, Surplus and Undivided Profits, \$125,000.00
This bank carries no indebtedness of officers or stockholders.

as a 1927 model at a valuation of \$780, when in fact it was a 1926 model and should have been valued at \$520, making a difference of \$260 excess valuation. I therefore pray your honorable body to instruct the county clerk to correct the valuation in accordance therewith and refigure the taxes accordingly.

C. D. Keyes, County Assessor.
On motion the prayer of the above petition was granted and clerk instructed to correct the tax list accordingly.

Mr. Chairman:
Whereas, the County deposits in the Ewing State Bank and Pioneer Bank of Ewing, Nebraska, taken over by the State Guarantee Fund Commission about May 20, 1925, amounting to \$22,570 at this date and no dividends have been paid; believing that we representing the county of Holt in the state of Nebraska are morally and legally entitled to a certified copy of the assets and liabilities as taken over by said department about May 20, 1925;

Therefore, Mr. Chairman, I move you that we, the County Board of Holt County, State of Nebraska, demand that these banks be investigated and certified copy of assets as taken over about May 20, 1925, also copy of audit when same is made be delivered the County Clerk of Holt County, Nebraska, County Clerk to forward certified copy of the above resolution to Mr. Bliss, of Department of Trade and Commerce, at Lincoln, Nebr.

John Sullivan,
Hugh L. James,
L. C. McKim,
John Steinhäuser,
E. Gibson,

L. E. Skidmore,
J. C. Stein.

Upon the above resolution being put to vote by the chairman it was declared carried.

The following claims were audited and approved and on motion allowed on the bridge fund:

10 o'clock a. m.; on motion Board adjourned until 1 o'clock p. m.

John Sullivan, E. F. Porter,
Chairman, Clerk

1 o'clock p. m.

Holt County Board met pursuant to adjournment; all members present.

Board called to order by the chairman. Copy of minutes of meeting of the Holt County Board authorizing the previous signature of the chairman on November 13th, to the supplementary Gravel Agreement to Project 168-A.

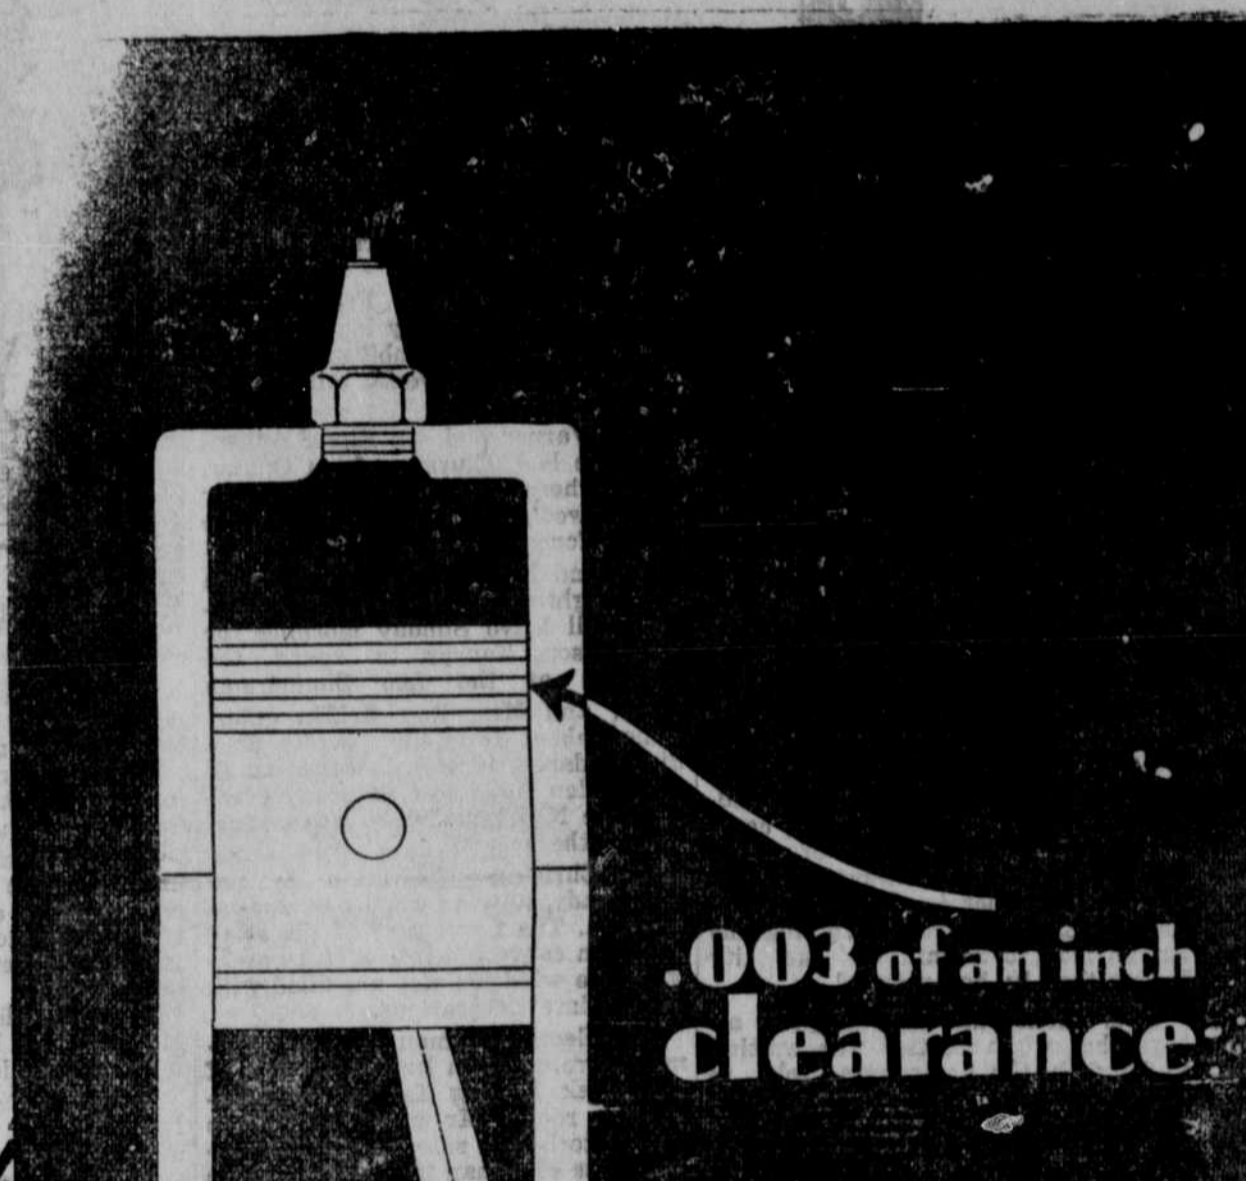

Motion was made by Hugh L. James and seconded by L. C. McKim that the signature be confirmed. J. D. Osenbaugh, representing the State Department of Public Works, being present.

Hugh L. James,
L. C. McKim.

Upon the above resolution being put to vote by the chairman, it was declared carried.

To the Honorable Board of Supervisors, Holt County, Nebraska, Gentlemen:

Upon investigation I find that the assessor in O'Neill for the year 1928 assessed to A. Marcellus a Buick car

3/1,000 of an inch apart yet they must never touch

SENSITIVE
steel surfaces, only 3/1000 of an inch apart, one driving past the other at terrific speed, back and forth hundreds of times a minute. They must never touch, yet what keeps them from touching?

Oil! A tough, rugged sheet of oil 3/1000 of an inch thick. How rugged, how able to stand abuse must oil be to stand up in that paper-thin space, in modern high-speed motors.

Listen in every Saturday evening to the Skellodians over NBC network: WLS, Chicago; KSD, St. Louis; WHO, Des Moines; WOW, Omaha; WDAF, Kansas City; KSTP, St. Paul; KOA, Denver, and KVOO, Tulsa.

Such an oil is The New TAGOLENE.

Skelly Oil Company made The New TAGOLENE to stand these extra abuses. Skelly chemists used years of experience to make this new lubricant more than equal to the exacting demands of terrific speed, high engine heat, high compression.

Modern motors are exacting more of lubricants, making demands that cannot be met with ordinary oil. They de-

mand a tougher, stronger oil seal that high engine heat and friction cannot break.

Put in The New TAGOLENE, drive at your fastest clip for hours at a time, make your hardest pulls, put this new lubricant through the most damaging strains your motor can exert.

You get a sense of security and confidence in your motor's safety that you can buy nowhere else at 30 cents a quart.

Only One Profit from Bell System Earnings

The Bell Telephone System includes the American Telephone and Telegraph Company, the Western Electric Company and 24 operating companies such as the Northwestern Bell Telephone Company in most of which the American Company owns a majority of the stock.
The American Telephone and Telegraph Company furnishes the Associated Companies with advice and assistance as a result of its research, engineering and staff work and operates the long distance lines which connect all the Associated Companies. The Western Electric Company is the manufacturing, supply and purchasing department for the System.
The American Company receives dividends from the stock of the operating companies and from the Western Electric Company. It receives a payment from the operat-

ing companies for its research, engineering and staff work and income from its long distance operations.

But only one profit is taken from this money. And this profit is not a large one. For it is the policy of the Bell Telephone System to furnish the most service and the best at the lowest cost to the public consistent with financial safety.

The one profit is the regular dividend to the stockholders of the American Telephone and Telegraph Company—now more than \$50,000 in number—which it never has missed paying since its incorporation in 1885.

All money beyond regular dividend requirements and a surplus for financial stability is used to give more and better telephone service to the public. This is fundamental in the policy of the Bell System.

NORTHWESTERN BELL TELEPHONE COMPANY
