ASSERTS BOOZE HURT ICE CROP

Owner of Lake Near Norfolk Objected to Dumping Being Done There

Norfolk, Neb. - (Specal) - With about 400 gallons of whisky, alcohol and wine dumped into the ice of a lake near the city dump here by Sheriff Clint Smith and his dry workers promised to become a law suit against the county by the owner of the lake until a committee of the county officials visited the lake.

'The owner claimed that the officers dumping huge quantities of confiscated liquor onto the ice resulted in honeycombing the ice and making it unfit to sell as ice.

The damage suit threats, however, disappeared after the county officials explained to the owner of the lake that an error had been made by the officers who had orders to throw the liquor into the city dump which is located near the lake.

Orders for honeycombed ice are now said to be keeping the ice dealer's telephone busy.

GIVES WARNING TO ASSESSORS

Commissione Nebraska Says There Is Danger in Low Real Estate Value

Lincoln, Neb.—(UP)--A warning that if valuations on real estate are reduced for taxation purposes counties will have to make tax levies beyond the legal limit was sounded Friday by Harry Scott, state tax commissioner, in addressing a meeting of county assessors.

Of 40 counties that have reported to the commissioner as having made their county levies in 1929, more than 20 had their levies in excess of the statutory limit, he said. The excess levies provide sufficient funds for county expenses, he presumed, and if the real estate values are lowered by assessors, more counties will have to make their levies in excess of the legal limit.

A plan whereby owners of real estate could assess their own property so as to eliminate township assessors was advocated by John Muir, of York. He would have the property owners assess their real estate much like they do their personal and intangible property by swearing to the statement of property holdings and flaving a severe penalty for swearing falsely.

Assessors from 58 counties attended the meeting at which problems of valuing real estate were dis-

SAYS SOLD "SCOTCH"

TO BUY RAIL TICKET Lincoln, Neb., Jan. 11—(UP)— Nicely labelled bottles that proclaimed the liquor inside was "Scotch" were seized last night in a raid on the apartment of Mrs. Sarah O'Leary and now the police are puzzled over two questions.

"Is it Scotch?" was one of the questions because it was so long since bottles of that kind were seized in Lincoln in raids that the officers didn't believe what they read. Most of Lincoln's potent liquor is freshly reminiscent of some corn field, they said.

The other question was over the story Mrs. O'Leary told. She said she was selling liquor to gain money to buy a railroad ticket for California where her children lived.

Nebraska Press Association Shows Result of Six Months Survey

Lincoln, Neb. - (UP) -Durh. the first six months survey of accidents in Nebraska, conducted by the Nebraska Press association and the department of vocational education for the state, 271 persons were reported permanently disabled.

Of the total number, included in the report up to November 5, 1929 71 were children and students, 70 were farmers, 60 industrial workers. 40 wives and mothers and 30 men in business and professions.

Falls were responsible for 23 fractured hips, three fractured skulls, 10 spinal injuries and 40 other fractures re-sulting in disability. reported during the survey.

Nearly 170 mice were received in short order and the greater number of them were eaten by the snakes. in the "zoo." But when the snakes began to give signs of being satis-
