

Slowed down by repair bills

WHY let repair bills slow you down? Put a small part of that money into extra lubrication value—and repair bills quickly diminish.

Skelly Oil Company chemists say:

"Good oil is so small a part of the upkeep cost of a car . . . and contributes so much to holding down other upkeep costs . . . it is sheer folly

not to buy the best oil (in the long run the cheapest) . . . The New TAGOLENE."

Today's motors are harder than ever on lubricants. Many hours of constant driving at high speeds, the strain of heavy truck, tractor and airplane

wear, test oil to the utmost. The New TAGOLENE gives an extra margin of protection against all these.

Put in The New TAGOLENE. You give yourself economy of the first order. You give your motor a new share of life it otherwise would not get.
