**WHEN WILL YOU BEGIN
USING THIS NEW OIL?**

It is being rumored (and truthfully) that no other American motor oil has been so speedily accepted by motorists. Conoco Germ-Processed Motor Oil has smashed all precedents by its amazing reception. . . . And this oil is as unusual as its introduction. Its superiorities are so apparent, that even before its announcement was well under way, literally thousands of new users were appearing at Red Triangle stations.

**CONOCO
GERM
PROCESSED
PARAFFIN BASE
MOTOR OIL**

Its name seems to intrigue motorists and much conversation has dwelt on the Germ Process, and the whys and wherefores. . . . the story is this: Under exclusive Conoco-owned patent rights, a precious oily essence is added to a superbly fine paraffin base oil. This essence is lacking in all other oils, including the one you are now using. The Germ Process makes possible the metal-penetrating safety factor that we call "penetrating lubricity." And this oil, of all on the market, provides a safer, more positive motor protection, from the time you start the motor until you turn off the ignition. So . . . when will you begin using this new oil? . . . at the sign of the Red Triangle.
