

# What's a stack of hotcakes got to do with a GARDEN?

HOTCAKES just off the griddle are at their tenderest. Then's the time to eat them—when they're hot. And vegetables just from a garden are at their tenderest. Then is the time to eat them, too—when the radishes are solid, crisp. When the tomatoes sparkle as you peel them, and you can slice them smooth and thin.

Have a kitchen garden and enjoy all your vegetables at their climax-time, when they are most tender and sweet. Plant Ferry's purebred seeds. These have abundant life inside. They are what their name says—purebred. Generations of the seeds that finally became these seeds produced vegetables and flowers approaching perfection.

Ferry's Seeds are at the "store around the corner." A few packets will show what your own yard can grow—but you will want more than a few packets when you look over Ferry's Seed Annual. With this, your garden can produce from early-radish time till frost, when crisp, white celery can last clear on till spring again! For the Annual, write to D. M. Ferry & Co., Detroit, Michigan.

P. 5.—THE GARDENER HAS NO SECOND CHANCE. PLANT THE BEST.

When you select seeds from Ferry's display box, you select the results of 75 years of successful growing.
